PLAN OF THE PROPOSED THREE HILLS MUNICIPAL HOSPITAL DISTRICT

In accordance with the provisions of the Municipal Hospitals Act, R.S.A., 1943, a request was received on July 13, 1944, by the Minister of Health at Edmonton Alberta, asking that a Municipal Hospital District be established to include the territory described below.

In compliance with this request, the Minister of Health has established the Three Hills Municipal Hospital District on June 7, 1945, appointing a provisional Board and instructing it to prepare a plan for the building and operating of a hospital in the said district, in accordance with the Municipal Hospitals Act.

The Provisional Hospital Board met on August 19, 1945, and prepared the plan outlined below in accordance with the Municipal Hospitals Act. The plan is to be adopted throughout the said district for a period of 14 days following which, providing that all provisions of the Municipal Hospitals Act have been complied with, the plan will be submitted to the Minister of Health for final approval and a date fixed, not exceeding thirty days from the date of such final approval, upon which the taxpayers of said district will be called upon to vote for the adoption or rejection of the said plan.

The territory included in the Hospital District is as follows:

That Portion of the M.D. of Kamdell No. 68, more particularly described as follows:

- Traverse 30, Range 26, comprising all of the land North and West of the Three Hills and Grand Two Counties, Traverses 30, Range 26, and 24.
- Traverse 31, Range 26, Sections 26, 27, 28, 29, 30, 31 and 32, being West of the Red Deer River.
- All of Traverse 31, Range 26, comprising therefrom Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 and 13 lying West of the Red Deer River.

- All of Sections 10, 11 and 12 and the South half of Sections 13, 14 and 15.
- All of Traverse 31, Range 26, 27, 28, 29 and 30, and 31 lying West of the Red Deer River.
- The South half of Traverse 31, Range 26.
- Traverse 32, Range 26, comprising therefrom Sections 1 to 36 inclusive.
- Traverse 33, Range 26, comprising therefrom Sections 1 to 36 inclusive.
- Traverse 34, Range 26, comprising therefrom Sections 1 to 36 inclusive.
- The Town of Three Hills.

The plan submitted by the Provisional Board upon which the Hospital will be asked to vote is as follows:

- (1) It is proposed to acquire a suitable site for the Hospital in or adjacent to the Town of Three Hills, Alberta, the said site to be subject to the approval of the Provisional Board of Health.
- (2) To build on the above site a twenty-bed hospital from plans prepared by a registered architect and approved by the Provisional Board of Health.
- (3) To provide for an operating room, a room and all essential furnishings and equipment as required in the regulations made under the provisions of the Hospitals Act.
- (4) To appropriate the revenue derived from taxes levied on the adoption of a schedule of rates of four per cent.
- (5) To all requirements made in respect of property situated in the Hospital District and their wives, dependent children, and domestic female help of such taxpayers who are resident within the same, a per cent rate of One Dollar (\$1.00), provided such taxpayers shall be assessed a minimum tax of Six Dollars (\$6.00) per annum.

(Non-taxpayers in the Hospital District may receive Hospital treatment at the rate of One Dollar (\$1.00) per annum, upon payment of a twenty-cent fee at Night (\$0.20) for single persons and the sum of Eight Dollars (\$8.00) per family, providing this sum is paid within thirty days (30) of the opening of the Hospital and thereafter not later than January 1st, in such year, except that if present existing the Hospital District must pay the same within three (3) months after coming to the District. The Board reserves the right to refuse to accept the payment of this fee, if it is made for the purpose of securing immediate hospital treatment. In this paragraph, the family shall mean the father, mother and dependent children only.

(6) No charge will be made for ordinary drug and dressings for persons eligible for the per cent rate of \$1.00 but they will be required to pay for the use of the operating room at the rate of:

Major Operations	\$5.00
Minor Operations	\$3.00
Major Operations	\$12.00
Minor Operations	\$3.00

(7) All patients shall pay X-ray charges, x-rayographs to receive a reduction of fifty per cent (50%).

(8) Extra charges for x-rayographs or x-ray-photographs requesting private or semi-private accommodations and receiving such accommodations shall be set by the Board and be subject to the approval of the Department of Health.

(9) The Board may enter into agreements with City Hospital and West of the Three Hills and Grand Two Counties, Traverses 30, Range 26, and 24.

(10) To create a debtless liability of Five-Year Term Bonds, (\$50,000.00) twenty years to run, more than 4% interest, and to repay the said debtments in equal annual instalments of combined principal and interest for a term of 20 years.

(11) The plan for the proposed revenue and expenditure is as follows:

REVENUE	EXPENDITURE
Rate of Kamdell, No. 68	\$1,200.00
Taxes of Three Hills	\$1,250.00
	\$13,140.00

(12) ESTIMATED REVENUE

IT IS APPARENT THAT CANADA is emerging from the war with considerable prosperity and with high production in the other fields. Although the people have borne only a small part of the cost of the war, Canada has reached parity in 1944 with the United States in many fields of service in the Allied cause and at the British War Machine where it was not isolated from it. Canada and Great Britain, after winning the nation's allegiance to a standard based on national self-interest, have made a great contribution to the war effort. The World War II Conference of the Atlantic Council has shown that Canada is not only a great ally but also a great friend. The Canadian people have demonstrated their loyalty to the United States and their willingness to share the burden of the war. The Canadian people have shown that they are not only a great ally but also a great friend.

It has been said that "war" before that there has been a time when it was not a war. The Canadian people have shown that they are not only a great ally but also a great friend. The Canadian people have shown that they are not only a great ally but also a great friend.

When the war came to World War I there were no radios, no refrigerators, no talking pictures. Telephones were primitive, cars were few, airplanes were "crude". Nobody knew anything about vitamins. Nobody knew anything about electricity. Nobody knew anything about the radio. Nobody knew anything about the car. Nobody knew anything about the airplane. Nobody knew anything about the radio. Nobody knew anything about the car. Nobody knew anything about the airplane.

Electricity has crowded more progress into the last 20 years than was made in a thousand.

VICTORY LOAN

OBJECTIVE: \$5,000,000.00

It has been announced that the maximum objective for the Ninth Victory Loan which opens on Sept. 12 has been set at \$5,000,000.00 of which \$2,000,000.00 is the minimum objective for sales to individuals.

This is an increase of \$150,000.00 over the individual objective for the Eighth Loan.

Because final victory means a material reduction in Canada's war costs it is possible for the Ninth Victory Loan to meet Canada's borrowing needs for twelve months.

NEW METHOD OF FIGHTING TUBERCULOSIS

A new method of fighting tuberculosis was introduced in Alberta on August 13, 1943 when the first male about a year old returned to Canada. Impressive figures just released show that in 1943 there were 148,141 Albertans who had chest exams. Another 718 cases number 269, with 1,711 severely diseased.

While diagnosed primarily to detect early stages of tuberculosis, the male units were used to detect early stages of tuberculosis, the male units were used to detect early stages of tuberculosis.

Operated by the Alberta Department of Health, the two units were loaned by the Alberta Tuberculosis Association and affiliated local committees at a cost of \$2500. The annual Christmas and Christmas provided the money.

In all there are 42 Municipal Hospitals in Alberta and about a dozen more districts are working to establish such. The record of all has been success, even down to the small ones in poor districts.

The mill rate varies in the different districts according to size, etc., and how long they have been established. Based on \$1000 valuation the mill rates run as follows: (Old) \$3.00, Elbow \$4.00, Hanna \$4.00, Delburne \$3.50, and Three Hills \$3.00. Such hospitals as High River and Drumheller are lower because their debentures have been paid off. The board is elected by the rate-payers themselves. The present board at Three Hills is a temporary one and automatically resigns at the next Municipal election. The cost to the ratepayers should not increase because we have the benefit of the experience of all the other hospitals in this regard and the cost is placed sufficiently high to cover all possible expenses. If other lands or villages are added to the district a further reduction should take place because no cost will be spread over a larger area. Trochu and Arma have studied their intentions of setting up municipal hospital districts and if the vote fails in Three Hills this district, no doubt, will be split up between the two. This should never happen to the best and fastest growing town between Calgary and Seattle. For the benefit of yourself, your family and your community — Vote YES.

I'm Into Everything

Practically everything in your home, from food to furniture, was made with Electricity. It also helped to make the materials of which your home was built, from nails to rafters. Ruddy Klavett was right on the job too, in producing the car you drive, the books you read, the clothes you wear.

For things you buy are made smarter, serve you better, cost you less, because Electricity helps to make them.

A Message TO FARMERS from a Farmer

H. H. Hannam is President and Managing Director of the Canadian Federation of Agriculture. In a message addressed to farmers, Mr. Hannam says:

"The farmer who is wise will look ahead and plan carefully.

"And in these years when prices and returns are more satisfactory than they have been, when labor is scarce, when farm machinery is reworked, when building materials are not readily available, a good course to follow would be that of putting a substantial share of the year's earnings into sound securities such as Victory Bonds. These reserves will not only provide a measure of insurance against difficulties in less favorable years, but at such time when supplies are favorable and costs will probably be lower, their purchasing power will be greater and return from them correspondingly increased.

"We believe this is good planning from the farmer's standpoint. At the same time, it is the very best of planning from the standpoint of the Nation."

FARMERS CAN BUY VICTORY BONDS on convenient deferred payments THROUGH ANY BANK

... just sign a short form letter which Victory Loans Salesmen carry (banks have copies) ordering the bank to buy Victory Bonds for you. Pay 5% when ordering and the balance at any time during the next 12 months. The interest the bonds earn pays the interest on the bank loan.

I've helped wage scales climb

With the exception of "Depression Years" the wages of Canadian workers have risen. By climbing Reddy Kiewit has helped to bring this about. By making it possible for each worker to produce more goods and better goods he has helped to cut costs so that wages can be paid to the worker.

the fact that financial and from the central office to so many rural centres stretched resources considerably. However central office was satisfied with operations he said at the local Co-op store.

Mr. Elmer Hall, the Assistant Supervisor of Retail Stores spoke briefly after being introduced in the and over the motion of Wm. Burns and Len Weaver this report was accepted unanimously.

The election of a local permanent board of seven members was the next order of business. Mr. McNeil outlined their duties and responsibilities. The Board forms the link between the local Association and the central office. It generally meets monthly to discuss the active operations of the store and to suggest changes in policy. The former committee was returned to office with D. Kuehler, chairman; Mrs. F. Hales as vice-chairman and C. M. Hestrich as secretary. A draw resulted in the 3 year tenure going to Mrs. W. W. Parker, Geo. Harvey and C. M. Hestrich; the 2-year to D. Kuehler and W. Hales, the 1-year to Joe Nakasa and Mrs. F. Hales.

The permanent committee will meet monthly at 2:30 p.m. on the second Saturday in each month.

**EMERGENCIES arise in any family**

Bankers are continually making small loans to meet these emergencies which can upset the best-planned budget.

Three out of every five bank loans are for less than \$500. Many of these are used to take care of such expenses as doctor or hospital bills, temporary embarrassment at tea-time, a sudden journey, the winter's coal bill.

Agility, discretion and needs of the family often are financed by small bank loans.

These small loans enable individuals to consolidate debts, and to pay back from income.

Small loans furnish just one more example of the service available to you at your bank.

the first postcard to the Supply Depot
at Regina was sent and was pre-
sented with in January, 1945. In con-
sidering a letter through the Supply
Depot, Col. Perry drew attention to
the fact that only the first grade
of food was used in feeding service
personnel and that all food was
stored under the most sanitary condi-
tions.

Red Cross Notes

Miss W. H. Milligan, Treasurer
for the Three Hills branch of
the Canadian Red Cross, has
submitted quarterly reports showing
the progress of the work done
during the past year. The reports
show that the branch has been
very active and successful in
its work during the past year.
A total of \$10,000.00 was raised
from the sale of Christmas
cards and other items. The
branch also has a number of
projects which are being carried
out at the present time.

GHOST PINK

Friends and neighbors spent a
pleasant evening at the Three Hills
branch of the Red Cross, when
they gathered to wish
Christmas. The evening was
enjoyable and many friends
and neighbors were present.
The evening was enjoyed by
all and the Christmas spirit
was in the air. The evening
was a success and the
branch was very happy to
have so many friends and
neighbors present.

SUNSHLOPE

A special meeting of the
patrons of the Sun Slope of the
Three Hills branch was held last
evening. The meeting was held
at the home of Mrs. J. B. Caffe.
The meeting was very successful
and many friends and neighbors
were present. The meeting
was a success and the branch
was very happy to have so
many friends and neighbors
present.

A HAPPY NEW YEAR

"...SO NOW WE'LL HAVE A BANKER IN THE FAMILY!"

"Well, Bob has finally decided! When he's finished school he wants to go to work in a bank. And I'm glad—for a lot of reasons..."

He'll get a thorough training, and can even receive university instruction in banking and economics while he is working. Nothing isn't learned in a day, but he'll get lots of help—and every opportunity to move up as he grows himself. The road to the top is wide open, and offers

SECURITY AND PEACE OF MIND

Social security is a phrase prominent in public discussion these days, but the question of it is not new. Consider the banks and their employees:

1. Pension Funds, to which, with their employees, banks have contributed voluntarily, under a plan for employees to devote all their business lives to banking, one of no business for life when they reach the age of retirement.
2. Annual salaries with pay.
3. Salaries with pay, and special sick leave arrangements in special cases.
4. Group life insurance maintained on jointly by banks and employees.
5. Good working conditions.
6. Unlimited opportunity for expansion and advancement.

Banks and their staffs, in comparison with such other, have made it possible for the latter to enjoy a well-founded sense of permanency and security.

Weather Forecasting

WEATHER IS A FAVORITE topic of conversation and is often an important part in determining the effect of news. Farmers know that the weather has a great deal to do with the success of their crops and that the weather has an important part in determining the results of their work with wool. Weather is equally important to many other undertakings. In recent years, particular attention has been directed to the effects of weather in connection with aviation, and great concern has been shown in forecasting the weather for the purpose of determining the results of weather forecasting has been made to better enable the public to know the weather. In the future, it is likely that the weather will be forecasted with more accuracy than it is at present.

We Should Go Land

At the expense of telegraphing are recent, thus the weather forecasting has been made to better enable the public to know the weather. In the future, it is likely that the weather will be forecasted with more accuracy than it is at present.

Rewards come to those who work for them. This is no true of a town or a man.

Put your prosperity to good use, to fall fully into into our lap. I can pass up by like the wind if we ignore its signals.

The star of any town's post-war development program will, at times, depend on the population's industries & day, and the age resources of the local merchants that thing is certain. Goods are going to be bought in the years years as they have been bought before. Whether they are pure and in our own community or in the urban center depends on what the town itself does at, out it.

There is a backlog of demand almost beyond reckoning. Farm incomes have risen faster than any other group in recent years. Farm production will continue at a high peak for years to come. Farm prices will not be deflated. Farm purchasing power is at the highest peak in history.

As soon as goods are available they will be bought. That means new homes, hardware, electric appliances, refrigerators, cars, washing machines, radios, furniture, farm machinery and a thousand and one other items.

A vast potential of business expansion lies ahead for small towns. It is for those who will take advantage of it, opportunists. Rewards come to those who work for them.

At a special meeting of Knox United Y.P.C. on Feb. 2nd at 8 p.m. Mrs. Chapman of Calgary will be the guest speaker.

The Women's Association will meet Thursday, Feb. 7 at the home of Mrs. Art Davis. Madame's Crown and Brims, luncheon. The Association held its first meeting Jan. 24 at the home of Mrs. Hughes. A missionary talk was given by Mrs. Purvis and a paper on the life of Robert Burns was read by Mrs. Christie.

Another member of the Capital for many years, Beld Shorter living at 11117-53 ave. Edmonton writes that he missed a ray copier of the Capital. Mr. Shorter was manager of Three Hills map and took an entire part in town affairs.

Get under the other fellow's lead and he won't get under your skin.

The quinquennial census of the prairie provinces will take this year beginning in June, according to the dominion statistics. Plans are far advanced.

We are in receipt of a letter from a Three Hills old timer, Mrs. E. Nichols of Red Deer who is recovering from a serious illness. She says "I am getting better but it is a slow process. I can walk, hang up of course. My hand and arm haven't got where I can use them but are slowly coming. It's 53 months since I was in a stove. We have a 4-roomed cottage on a nice acreage, near the north school and south of the armory. If you ever get to Red Deer come and see us."

**We Pay For Good Roads
—Let's Make Them!**

If you drive or maintain a car or a truck, either for business pleasure, you need no instruction on the value of good roads. You have experience of the delays, noise and expensive repairs occasioned by poor roads. Add to this the millions of dollars of lost tax dollars that must be charged to Alberta's poor roads every year and now it becomes more apparent than ever that **SOMETHING SHOULD BE DONE.**

THE TIME FOR ACTION IS NOW! The money paid by motorists for license and gasoline tax is sufficient to finance a complete road building program and the Alberta Government has such a program before it, as set forth by the Department of Public Works. This plan should be initiated **without delay.**

The Alberta Motor Association has never related its pressure to the modern highway system.

OBITUARY

Alexander Peterson, a resident
of this district for the past 23
years, passed away Feb. 22 at the
age of 90 years. His wife prede-
ceased him in 1941. Surviving are
seven daughters, one son, thirty
grandchildren and 31 great grand-
children. Last and first were held
Monday afternoon in the United
Church, conducted by Rev. Hugh-
son, and Rev. Jacobson of Falun.
The service was largely attended.
Special music was rendered by a
joint choir and a duet was rendered
by Mrs. Scott and Mrs. Benson.
Funerals were given by J. Long,
H. Doo, A. Gerd, N. V. Benson, L.
Davidson, R. Taggart, etc. Interment
was made in the local cem-
etery. Patton's Funeral Home.

Relative attending from out of
town were Mr. and Mrs. F. Olson of
Fisher Creek. Mr. and Mrs. A.
Anderson, Sam Anderson and Mrs.
Derk Wallen, also Rev. and Mrs.
Jacobson of Falun; Mrs. A. Larson,
Mrs. Tom Curry and son of Coud-
dale, Dorothy Curry, Calgary.

AND IN THANKS

We wish to express great gra-
titude to our many friends for their
expressions of sympathy and kind
words and for the beautiful floral
tributes received during our re-
cent and bereavement.

The Peterson Family.

Local News

The 'old marrieds' have had a long standing grievance for not having trimmed the high school at brownball during the last carnival. It seems the 'old fellows' can still go over better than the kids when it comes to winning a brown ball. Cpl. Stanley Dummer also has returned from overseas. He is visiting his brother here.

The C-Shop has installed new awnings on the store.

Mr. and Mrs. Joe Groat are spending a few weeks in the city.

Miss Peggy Hagen and Kenneth Michaels of Cereval were united in marriage on Saturday, Feb. 26 at Cereval. The newly weds spent a few days at the John Birch home. F.O. Jim Frost of Edmonton spent the weekend with Mr. and Mrs. Lawrence Davis.

The Presbyterian Guild will meet at the home of Mrs. C.J. Davidson, Mar. 14, at 3 p.m.

Don't forget the World's Day of Prayer service in the Anglican church this Friday at 3 p.m.

One, such Mrs. Bryson and daughter left on Saturday for their new home in Calgary. Cpl. Bob Wall is now in charge of the police detachment here.

Rev. and Mrs. Widdeman's son, Wesley, passed away at Trochu hospital on March 1st. Funeral service was held in the Evangelical church, Sunday, conducted by Rev. Venneth of Torrington. Rev. Hughes assisted. Interment will be made in Wapella, Sask.

Joan Newson was home for the weekend. Her sister accompanied her to Edmonton.

The Board of Trade will hold a banquet at the hotel tonight. Get your tickets from Lind Lawrence or Frank McLarn. Be a member for The Three Hills Board of Trade.

Mr. McIntosh of Torrington purchased a new Ford truck from Highway Motors last week.

Norven McPherson left on Saturday for Calgary where she has accepted a position.

You may "make the rent" to build a house, but let us see how to build a home.

NOTICE

Dug taxes are now due and payable at the Town Office as follows: \$5.00 (males); \$3.00 (females) with \$1.00 discount if paid before April 1, 1945.

And further take notice that unless these taxes are paid before April 1, 1945 action will be taken to collect same.

Australian Anniversary

THE PEOPLE OF AUSTRALIA recently observed the 150th anniversary of the entry of their country into the realm of the British Empire. This anniversary is called "Australia Day" and is a national holiday. For the first time since the end of the war, from Canada and most other parts of the Empire, thousands of people are expected to be in Australia to mark the occasion. The day is celebrated on January 1st, the day on which the first fleet of British ships arrived in Australia. The day is celebrated in a variety of ways, including parades, fireworks, and the playing of the national anthem. In the past, the day has been celebrated in a variety of ways, including parades, fireworks, and the playing of the national anthem. Price of Flax Increased

A dominion government announcement that the guaranteed price for flax seed effective Aug. 1 next will be increased from 27¢ to 44.75¢ per bushel places this crop on a excellent cash return basis, and it is expected that more flax will be sown this year in view of the world shortage in flax and vegetable oils. Flax has many by products and if the supply is cut off, the farmer himself is directly affected.

Local News

A change is announced by Northern Bus Lines arriving in the city earlier in the evening, with only a few minutes change in the morning schedule and none on the 4:15 trip.

The death of Mrs. John Papp occurred on Saturday last. Obituary will appear next week.

Mrs. Will arrived Friday from Medicine Hat to stay with her daughter, Mrs. John Myers.

Mrs. Meldinger of Bonanza and Mrs. Paul Ashurst of Chibougamau have been visiting relatives here.

It is reported that a number of pheasants have been released in the district recently.

Mr. and Mrs. W. A. Jansen arrived last week from Florida, where they spent the winter with their daughter and son-in-law, Mr. and Mrs. Earl Young. Mr. Young operates an orange grove.

Mr. and Mrs. G. G. Don returned from Victoria where they spent the winter.

George Evans of Calgary is doing the brick work on the new printing office building.

A shower was held at the home of Mrs. Theodore Tota on Wednesday evening in honor of Miss Lila Tota. A program of piano recital, songs and readings was presented.

K. Ray McLennan, Ophthalmologist of Calgary will be at Dr. Davidson's office all day Monday, April 15. Consult at Calgary office 1015 Southern bldg. daily except Monday and Tuesday. 1-2

Mrs John Papp passed away at

The Trench hospital on Saturday, April 23 after a 24-hour stay, a vital moment duration. Funeral services were held on Monday morning from the Central Church with Rev. Fr. Keenan officiating. The sisters from St. Mary's hospital were in the Mass.

Mr. Papp leaves to mourn her passing her husband and sons, Alvin, John, Gabriel and Eugene.

We wish to thank our many friends for the lovely floral tributes, kind words and sympathy during this sad time of bereavement.

Mr. Fred Vito and Family.

A deep love someone who truly grieved to the last drop.

Mrs. Taylor, Jean and Bobbie were weekend visitors at the Al-Berward home.

Last Friday evening a "welcome home" was staged at Berward school for returned members of the armed forces. A new program was enjoyed and finished with a pageant representing all countries at war with Mr. and Mrs. Tom Bishop representing the King and Queen. Lunch was served. Miss Davidson was chairman and Walter Durn gave an address of welcome to the boys. J. B. McWhann of Calgary also spoke a few words.

Mrs. Gordon Campbell and Robert arrived from East Couder to visit at the Bubb, Campbell home.

ADVERTISING PROFITABLE

Editor, The Capital,
Dear Sir:
I give you notice to insert an advertisement in your paper for two months. It has proved results. Continue to insert it until further notice.
Yours truly,
HAROLD RAMSEY, D.C.

The home of Mrs. Olive Brown was the scene of a magnificent show. Mrs. Clara Perry, recently the room was decorated with pink and white streamers. 25 guests were present. The show ended the point of honor with beautiful gifts. Lunch was served by the hostess, assisted by Mrs. two McArthur.

Mr. and Mrs. Geo. Johnson were up from Calgary on Sunday. Art Milan arrived from Calgary on Sunday.

Mrs. Anne Trenham and her grandson, David John, celebrated their birthday together last Sunday with a team party.

Mrs. Margaret Sykes, well known to some in the district will broadcast over CBC on Wed. afternoon.

Mrs. Mayne Mayer, Gordon and Gerry of Dallas visited in town last week.

Capital Now in New Brick Building

The Capital newspaper has moved into the new brick building on the west side of the town. Although the old building was in a good state of repair, it was not suitable for the increased volume of business. The building is a good example of the new style in printing plant layout. The main floor will be used as living quarters and business offices. The new building is an asset to the town—no longer.

C. J. Davidson is announcing the sale of his car, auto and mail insurance and real estate business to a former resident of the town, Roy Colwell.

An advertisement appears in this issue on behalf of the new manager of the Three Hills Hotel, H. V. Kerr. Mr. and Mrs. Kerr are moving to Edmonton.

Mrs. G. King celebrated at a tea recently in honor of Miss Clara Perry.

Seed Treatment Recommended
Seed treatment pays. It is the most practical and effective means available for preventing the numerous losses caused by the most dangerous of grain crops in Western Canada (Fusarium) seed borne on the surface. In 1934 therefore, the treatment of seed grain should be regarded as a cheap form of crop insurance.

Doing to the gravity of the seed problem, plant pathologists from Manitoba, Saskatchewan and Alberta have officially recommended that in 1935, all seed of wheat and barley should be treated for the control of the surface-borne disease which has led to reveal the presence of these seeds in other words farmers are strongly advised to treat all seed grain with a 10% solution of formalin. This solution is made by mixing 100 parts of formalin with 900 parts of water. The seed should be soaked for at least 24 hours before it is used. The seed should be treated for two or three months in advance of sowing. Formalin should not be used on seed, wheat or barley because it is very injurious and poisonous. Persons treating seed with a mercury dust should wear gloves and observe the directions and precautions given on the label of the container.

For further information on seed treatment, write to Linn Scientific Farm, Linn, Ontario.

It writes 90% of all Hail Insurance written.

It does not make one cent of profit.

It gives 2 weeks longer protection than any other company.

It does not refuse to insure you because you have been hailed out several years in succession.

It pays 100% if your loss is 50%.

It allows cancellation at any time (free until the 25th June).

It gives protection before payment.

It gives a discount of from 5 to 10 per cent if you pay cash.

It's Agent is

THREE HILLS

HAIL INSURANCE

A summary of the Hail Insurance Set-up for 1946

The limits of insurance coverage for cash insurance in this District are as follows:

Not more than \$5.00 per Acre, \$1,000 per Section, \$5,000 per Township and not more than \$2000 on any 3 adjoining Sections. LIMIT \$15.00 per Acre of total insurance.

With TEN leading Companies writing this class of business, we can distribute YOUR hail insurance to the best advantage both as to yourself and to the individual companies.

The rates are uniform with all Companies.

The LIMIT of \$5,000 per TOWNSHIP with any one Company makes it advisable to place your insurance as soon as possible.

GHOST PINE

New York City, Ontario, was
located this week at a dinner
to honor of Margaret Trevelyan,
a bride of this month.

Her table was
set with a tablecloth of white
with a green and pink and white
border. Miss Adelaide McGowan was
M.C. and also gave the address
to the bride, who was attended
by her mother and sister, Mrs.
Trevelyan and Mrs. Allen
Trevelyan in carrying her down
the aisle which were dressed in
green, Miss McGowan and Miss
Chloe McGowan and Miss
Jean Paul. Miss Paul was the
first to put up a bottle of
champagne in the house.

The New River-Red Deer
conference of the U.F.W. will
be held in the U.F.W. hall
Tuesday, June 11 to 12 p.m.

WEDDING

The home of Mr and Mrs Chas.
Crawford was the scene of a lovely
wedding on Wednesday, June
19, when Hazel Miranda, daughter
of Mrs. Leaver and the late
Mr. Tom H. Leaver, formerly of
1910, 1911, became the bride of
Messrs. Franklin Erdman, son of
Mr. and Mrs. A. J. Erdman of
Franklin, Minn. Rev. M. H. Kirk
officiated. Miss Lilian Gray,
sister-in-law of the bride, and
Miss Lorraine Leaver, sister of
the bride, acted as bridesmaids.

Given in marriage by her
brother-in-law, Chas. Crawford,
the bride wore a street length
gown of white jersey fashioned
with full gathered skirt and bolero
cape sleeves, and a wreath of
white flowers in her hair.

A buffet lunch was served to 50
guests. For the wedding trip to
Basil and Jasper the bride wore a
blue dressmaker suit with white
accents and a corsage of red roses.
The couple will make their
home at Kestfield.

Miss Arthur Kirk was having a
shower for Hazel Leaver on Tuesday
last. The gifts were brought in
in a decorated baby carriage.

By Beth Pines and Carol Crawford
and Miss Leaver's mother and sister,
also assisted in unwrapping the
gifts. Mrs. W. Davidson gave
the address to the bride and Mrs.
Hazel Pines and Mrs. A. J. Anderson
helped with the program. Lunch
was served.

A shower was held last week at
the Mt. Vernon school in honor of
Miss Davidson. The program
consisted of piano solos, readings
and recitations and Mrs. Pines gave
the address to the bride. The gifts
were brought in by Rosemary Rodin
in a decorated wheelbarrow.

A picture show was held in the
Lamont school last Thursday by a
representative of the national film
board, under the auspices of the
local UFA.

WEDDING

Central United Church was the scene of a wedding of interest on Friday, June 28th, when Kathleen Albre, daughter of Mrs. Lela G. McIlbough, and the late Charles P. McIlbough have the bride of Mr. William Stanley Caprell of Nanton, son of Mr. and Mrs. Gordon Caprell of Nanton, Rev. C.A. Lawson officiated.

The bride, who was given in marriage by her brother, Mr. Paul C. McIlbough, was charmingly gowned in white, embroidered sheer. The veil of Brussels net was fastened in coronet style with orange blossoms worn by her mother on her wedding day. She carried a bouquet of red roses and lilies.

Miss Ruth Waterhouse of Corral, was maid of honor, wearing pale pink embroidered sheer, and Christina Haden, an Irish maid, wore pale blue embroidered sheer both wearing shoulder length veils and carried bouquets.

Little Stanley, THREE HILLS, made a sweet little flower girl, in a rose tulle dress and carried a basket of sweet peas. Cyrus (step-son), brother of the groom, was best man, and A. N. Latt and W. C. Haden, bridesmaids.

A reception was held at the Palmer Hotel after the ceremony. For traveling the bride chose a dress of cotton muslin, with a top coat of purple, and white shoes.

Mr. and Mrs. Caprell left by motor and showers of good wishes and goodwill for the west coast for their honeymoon and will reside in Cranbrook, B.C.

Civilian Aviation

THE DIRECTOR GENERAL of the Department of Transport, Mr. A. H. McRae, has announced that the Department is now in a position to issue permits for the operation of aircraft in Canada. This is a significant step in the development of civilian aviation in the country.

Many Reasons For Concern
The Department of Transport is concerned about the safety of aircraft operations in Canada. There are many reasons for this concern, including the lack of proper training for pilots and the poor state of many aircraft.

Rapid Advances During The War
During the war, there were rapid advances in aviation technology. This was due to the need for faster and more reliable aircraft. These advances have now been put to use in civilian aviation.

SHOWER

The basement of the United Church was the scene of a lovely shower on Friday evening in honor of Catherine Hughes, a bride-elect. The room was beautifully decorated with pink and white streamers and cut flowers. Ann Burdett and Marjorie Gordon received the guests at the door.

A program including a piano solo by Mrs. Brown, readings by Mrs. McInnes and Mrs. Cran was carried out under direction of the latter. Mrs. Manning gave the address to the bride.

The bride was assisted in wearing her gowns by her mother and sister, Margaret. Doris Day and Beth Edwards then put the gifts on display after which Catherine fittingly and originally thanked all present for wishing her the best in her new venture. Lunch brought a very enjoyable evening to a close.

Dr. Harold Ramsey, Chiropractor (Palmer School) will be in Ladies Nursing Home, Wed & Thurs. each week. X-Ray available at 1001. Office. Specializing in feet, stomach, joints and eye troubles.

Local Children in Plane Accident

Geraldine deFrore and Patricia Parr narrowly escaped serious injuries when the plane in which they were passengers failed to clear a wheatfield while taking off.

Throughout the afternoon of July 31st at Ghost Pine Creek a small plane piloted by Frank Collins of Calgary was kept busy taking up passengers at the local sports. All went well until evening when Geraldine and Patricia were able to get ahead for what was to be the last trip. The plane, taking off on summer school, was approaching a wheat field. Just as it was about to leave the ground it struck a net and failed to clear the stand of wheat which caused the plane to take a somersault. Luckily, no one was seriously injured.

It is reported that there was between eight and nine hundred dollars damage to the plane.

Mr. and Mrs. Edward Baker and Alvin and Mrs. C. Nelson of Blainey spent the weekend at Red Deer and Rocky Mountain House.

Our Half Acre

Farm Yard West Central

Throughout the Municipal District

of Jawoll there are many

farmsteads scattered over a

large area. Many of these

are in good condition and

do not give much trouble in

cultivated fields. It is a good

idea to have a half acre

around the farm yard. It makes

the garden more convenient

and convenient to have a garden

near the house. These conditions

are the following:

1. It is a good idea to have a

half acre around the house.

New Alberta Road

Contracts Awarded

At the present rate of progress,
the provincial road program for
the current season will be com-
pleted before freeze-up, according
to information which the Alberta
Motor Association has received from
the public works department.
Traffic is moving on the main
highway between Calgary and Ed-
monton all during heavy frost.
Work is being done with hard surfacing on
the Calgary-Crowfoot section has
been extended to Delburne.

A contract has been awarded for
the construction of a new Alta-
berta highway, while the grading
of the Calgary-Delburne high-
way also is under way. This is
expected to be finished this season.

By July 25th some three miles and
a half section of road has been paid
out by the government to town of
Edmonton, under the terms of the
Edmonton Act.

That Lucky Rabbit's Foot

Some people have their ups and
downs in life. Les Thompson's was
all up. Two weeks ago Les pur-
chased some gasoline at a service
station in Boulder and dropped his
wallet containing \$178. Some time
later he discovered his loss, re-
solving to move on the road to find
the wallet on the road near the service
station. On Sunday P.M. last, Les
lost his wrist watch on the way to
Calgary. He watched the road and
suddenly upon his return that
night and before it or not he
found his watch on the highway
underneath after traffic had passed
over it for several hours. We ask
you—How many men live as he
do sometimes.

The principle man who was
on duty on these three cases was
for principle.

SUMMERFALL MICHIGAN

When performing summerfall operations the farmer should keep in mind the four principal objects which are as follows:

1. Conservation of the maximum amount of soil moisture.

2. Maintenance of a trash cover or a heavy mulch of the soil to prevent soil erosion.

3. Control of weeds.

4. Control of insect pests.

Weed and insect control can be largely obtained with the same operation if these are properly timed. For instance, light tillage of stubble is insufficient in destroying early grass and grasshopper eggs, as well as nematode and other weed seeds thus preventing early germination the following spring.

The quality work done in summerfall depends largely upon the condition of the operation and adjustment of the machine. A properly adjusted machine does a better job as well as a more economical one. The rotating edges of all tillage machinery should be kept sharp at all times to ensure the complete cutting of all material in its path.

The new way to do tillage is to use machinery known as the power tillage. This is a very useful implement for summerfall operations as it turns the trash on the surface of the soil, thus preventing the soil against erosion. The tiller should not be used for more than one operation except where very heavy mulch is available. If there is only a light stubble and the tiller is used for more than one operation all the trash is completely buried and the soil is completely pulverized.

It has been demonstrated that there are two half to four inches of soil in the most economical speed to pull tillage machinery. If implements are drawn at a higher speed than this the draft power of the machine is considerably reduced. At higher speeds, than this the soil is not pulverized to a greater extent, and pulverized soil is the forerunner of erosion.

WEEDS & PESTS. PESTHARVESTAGE

The Alberta & West Coast division of the Canadian Government is pleased to advise its members that it intends to carry on for the crop year 1946 47 an co-operative basis with the following notice is published to comply with the provisions of the War Tax Act which was amended in the last session of the Parliament so as to last co-operation.

"As required by the Income Tax Act, the will advise its members, as referred to in the said Act as amended, that, in accordance with the terms and conditions and within the times and limitations contained in the said Act, it is its intention to pay a dividend in proportion to the 15.00 percentage of the net income of the 1945 taxation year or any of such other funds as may be permitted by the said Act, and we have, by hold out the proceeds of the payment of a percentage dividend to you accordingly."

Forestall Disaster

Disasters come to everyone. Home folks are luckier than others and the blow fall with less weight but, somehow, sometime, troubles arrive. It isn't a very cheerful thought, but it must be admitted it's truthful. Disasters, with their certain losses, can be anticipated and lighted by insurance. We have for your inspection many different forms which adequately cover your requirements. Let us explain them to you.

In these days, with problems
being raised rather than solved
at the peace conference, with
foreign leaders' hands falling on
Poland and Sweden, with in-
creasing demand after demand
coming down on the conference
and among every government in
Europe to split the world's at-
tention, what is the matter?

The democratic nations of
the world need to find a com-
mon mind and a common heart.
They need to know what they
want and then to fight for it
with a determination, shall we
say, more than human.
It is not a question of being
lovers "put on the spot", and
of having to adjust and to say
"yes" or "no" to the carefully
planned maneuvers of other
nations. That was the way Ho-
lier, and not the democratic na-
tions, came to be the perma-
nent of world history in the last
decade. As peace-makers we
need to take the initiative and
control because the shape of
history is thus made.

The last century was more
clearly from the peace confer-
ence than this is not "peace"
but an idealism we that we
are in. The only way to meet a
third world war of come to us
to fight and win this war of de-
fended war is not to take
up a gun and say "We're right".
It is to take up our own idea
and live it out till we prove we
are right. To not this part is a
way of life that wins others to
it is the only way to find peace
in life and to make peace in
the world.

OFF THE RECORD

It is said that manufacturers may go in for
cheaper cars since they are
getting the price on account of
the market depression and lower
salaries. We think that this
is not to be compared with the
fact that the people will get
what they will drive in the
cheaper cars!

Those who have decided to give
everything and move from the
line of working.

When some are working to
meet needs they will not be
second guessing.

To change the system without
changing people is the cheapest
you can without taking a bath.

Income Tax

of the third year which may be a bumper, can be average with the two preceding years before the income is taxable.

The second provision of importance is that in which a working wife is allowed an exemption of \$250 on income earned by her in addition to the married exemption of \$200 on the husband's income.

Similar provision is that when there has been a change of several years in childing and computing income tax returns interest on amounts owed due and payable after checking will not be collected for a longer period than 30 months. This is even better than the Federal provision for a two year limit.

A fourth provision provides for the establishment of a board of appeal where claims against assessment of income tax in the year of 1946 and on subsequent years may be heard. The amount of excess profits tax from a farmer who is fully prepared at his farm and the amount of exemption of \$1,000 to \$2,000 for married couples and \$600 to \$700 for single persons will be of benefit. There is no doubt that the Canadian Federation of Agriculture was instrumental in getting these provisions. In regard to the three year rule, average it is now up to the individual to make his returns regularly so that full information is available for averaging his income.

Veteratf Shops works full time in Poppy Production

BY DOUG SMITH

That little and busy shop which makes its annual debut on November 11th, that little flower of lavender and white silk has an interesting background.

Manufactured in Montreal and Toronto at Veterans shops the work is done by the skilled hands of disabled veterans who are unable through their disabilities to compete on the commercial market. Some work in the shops while others too handicapped to leave their homes do the job propped up in a bed.

A simple looking thing this poppy but each individual one is shaped and produced by skilled workmen.

Send one old sweet of eight years ago. There was a time when I hated the sight of that Flanders poppy, we saw 'em when they were real, but to us they were a reminder of the horror of war. Now, when we see them, we are moved by the sight of them.

Many of the veterans discharged in 1919 began to work up in later years. That former "white bang" which is related to the poppy in its shape, is now a much different thing. These signs of changing times, these signs of a new world, are now a part of the poppy.

It was tough going," said Y. E. "Tommy" Smart, former of the Veterans plant on Munro Street, Toronto, and who has been supervising and making poppies for 12 years.

Greatest thrill that the workers in the Munro shop get is the making of a special wreath for the King and Queen during their visit to Canada in 1929. Said Tommy, "Everybody in the shop had a hand in it and it was made especially from oak leaves which is the way they make them in Great Britain. We were tremendously proud of that man."

Tommy, "Everybody in the shop had a hand in it and it was made especially from oak leaves which is the way they make them in Great Britain. We were tremendously proud of that man."

In the Montreal factory on Pine Street West, P. J. Black, who has 22 years' experience in supervising the work of the veterans as "P. J.", has been supervising the job for 16 years. Being a good man, P. J. said, "I got down here every day summer and winter and I hope to keep on doing so, but just in case one of these days I shouldn't be able to make it, he has arranged for another man to take over."

Appreciating that the cost of living has risen considerably the veterans in both plants were recently given an increase in wages.

Throughout the plants maintain their all year round schedule and while all the orders are filled for the 1946 delivery they are now busy making orders for 1947. In 1945 nearly 4,000,000 poppies were sold and this year in anticipation of still greater sales they have stepped up production by twenty percent.

Operated under the supervision of the department of veterans affairs, the Veterans shops play a large part in maintaining the Canadian Legion while under no responsibility in the financing of these shops nevertheless has been entrusted with the business end of poppy sales.

The sales of these poppies go towards taking care of these districts, irrespective of whether they are Legion members or not, and all work is voluntary in this respect without any remuneration.

Oldtimers Leave Three Hills

Don George and Joe King after 20 years of service to the restaurant business have decided to retire and take 40 days.

Frank Ostrowski and Leslie Papp two young lads with plenty of ambition purchased restaurant licenses for the past 20 years at the J. B. Cafe.

Don George and J. King start all their dining business in Three Hills, September 1912. Since then they have seen many new developments on the town continued to grow. They kept a very good restaurant and were known for and with for their meals and good service.

The past few years have seen many of the old timers depart of their business. However there are changes that must come. Thus concludes On.

High School High Lites

The reorganization of a High School Hockey League is under discussion. A four team league is anticipated to start next season as they battle in quest of the Highway No. 21 Cup emblem of the league championship. The undersigned officers are shorted to represent the local club.

Pres. G. R. Tan
Vice Pres. P. H. Sage.
Sec. Travis, A. Nakash.

Redie Hawkins is in full swing. The girls think that now they have to carry the loads, the boys are doing a remarkable amount of homework.

Two grade two boys are wondering whether the girls get their dates as mixed up as they have during the past week.

In the female portion of our high school on a set, or have they lost their appetite since they have been fasting the bill.

On our assembly last week, is Bill Wilson, he claims he cut his fingers on a fan belt, but other reports say that Betty turned cannibalistic.

If it was the company that's a crowd.

I'd be ashamed to show my face if I had a Christmas ball, myself all night and had the morning hangover to dance of which there was't any. Some character told our Justice that O'Brien was holding a dance -- she believed him -- SUCKER! I'd bet those who were called winners looked like they had had next morning. I wonder if Tully had a cold?

Ted had his Little wonder's root cut his chestnut for a lovely old. Members. He'd make a lovely foster.

Teacher: "Let's spell weather." Len: "Weather!" Teacher: "We'd better buy that's the worst spell of weather we've had this year."

PROCLAMATION

Whereas, Christmas, 1928, is the 28th Canada-wide sale of Yuletide Christmas Bazaar and Whereas, Yuletide is one of the most popular customs of our times, killing one person every 10 minutes in Canada and causing the death of more men and women between 25 and 45 than any other disease; and Whereas, in Canada during 1928 more than 5,000 of our best young citizens were killed by this disease; and Whereas, The Alberta Yuletide Association and Christmas Bazaar Committees are waging an intelligent and effective battle against this disease in our community;

Therefore, I, C. J. Davidson Mayor of Three Hills do hereby earnestly urge all good citizens of this community to observe the 28th Canada-wide sale of Christmas Bazaar by wholeheartedly supporting the 1928 Christmas Bazaar, both by buying Bazaar and using them as our Christmas meals, to the end that our own community, which has not escaped the ravages of this disease, may win early victory over tuberculosis and continued freedom from it.

On

Earth

In these troubled times of world unrest and strife, Christmas brings home to us the realization that "Peace on earth, good will toward man" is more than just an empty phrase. It is the foundation of all the teachings of him whose birthday we celebrate. May that spirit go with you throughout the days of the coming year.

All Canada welcomes the
1947 CHEVROLET!

BIG-CAR QUALITY AT LOW COST

*now made even bigger-looking, even better-looking
even more beautiful and desirable in every way*

Chevrolet dealers are displaying the newest creation of Canada's largest producer of automobiles - the new Chevrolet for 1947 - offering you an even greater measure of BIG-CAR QUALITY AT LOW COST!

See it and you will agree that it's the biggest-looking, and best-looking Chevrolet

ever built. It's more beautiful in every way, both inside and out. It's designed to not-ride, not-rattle and not-drive all other cars in its price range. And above all, it reveals that meeting Big-Car quality in every phase and feature, in every part and point of detail - which buyers agree is exclusive to Chevrolet in its price range.

Alberta Tests for Motor Car Drivers

Tightening up of tests for Alberta drivers is planned by the provincial secretary's department, according to a memorandum received by officials of the A. M. A. This will be done through regulations and no fresh legislature of that kind will be required at the present session of the legislature. The plan provides for a check-up on those who have been licensed in Alberta. It is a provision a declaration when applying for a license that he or she never has been involved in an accident. It will be assumed that such person is a qualified and capable driver.

For those who have been involved in accidents, it is planned to

Three Hills 7 Trochu 1 in first Senior Play-off Game

The Three Hills Senior Hockey Team finished their regular schedule at the top of the Big Five Hockey League. Tied with Trochu for that honor, the local boys over-given top rating by the total goal-scoring.

Carlson finished third and Elmore fourth. Trochu was last in fifth place. Four teams entered the playoffs, with the first and fourth, second and third teams playing.

Three Hills defeated Elmore in two straight games and Trochu was over Carlson also by straight games.

Both teams fresh from their semi-final victories swung into action last night with Three Hills playing Trochu. The largest crowd of the season was on hand and they saw good hockey all the way through.

The local boys played hands up hockey right from the start and it was the Kitchener who scored the first goal and was assisted by Ray Johnson and Barney Neutzing. One penalty was handed out to a Trochu player for playing with a broken stick. There was no scoring in the first period but it was fast hockey and plenty of action.

In the second period Ken Tulley scored the second 3-Hills goal, a pass from Gordon Long. Goals scored by his name? Long made a rip-length shot and scored the third goal.

Lloyd Brown on put off for two minutes for tripping but neither team scored while he served his penalty. Joe Hinkle made the score 4-0 on a pass from Ken Tulley and he was all the scoring in the second frame.

Spurred by their four goal lead, 3-Hills still played smart hockey and the third period was a fair indication. Barney Neutzing scored the fifth goal unassisted and a few minutes later Art Stone for Trochu scored their only goal on a pass from Mike Farber in break the deadlock for Gussie Johnny Dye.

Kirk Hinton made it 6-1 on an unassisted goal and Hinton scored the last one on a pass from Will Schmidt.

Three Hills are now game up in the two tied three play-off and both teams tangle again on Friday in Trochu.

have tests carried out by the RCMP. In order to ensure that the applicant is qualified to handle a car. These tests will be of a comprehensive nature.

Government officials point out that B.C. and some other province have had a very long test system for some time in respect to applicants for driver's licenses.

It is expected that the new driver's license will be made available by March 17, when new license plates also will be distributed.

Hi-School Hi-Lites

Every one in the Hi-Schools - wherever that Junior should want to be short inside instead of draped over his shirt (as she has been doing lately). Maybe it is that she doesn't get up early enough.

After seeing our Star Hockey players we feel sure they should resort to playing Tiddley Winks.

Rain certainly is going to today, even our friends are asking for Heavy Guidance for now. The only trouble is that they don't sit at the wrong time and atmosphere.

We understand the new King baby never even ask for Mom, but immediately wanted to know where "Uncle Les" was.

Who said, "Have you heard it, a Turner right here in our own town. Maybe we are mistaken though, perhaps in the preschool we are flying over the tables and chairs in Olive Preston Class.

The executive reports that plan for our year book, "Millstone", are going ahead rapidly. It is a very nice job, prospective advertisers please let us know so we don't mean to forget.

If you have any evidence that is not missing (two-thirds or otherwise), notify Bill Wilson, for the look of his face, he has set up business recently.

What Gussie Hill made has taken over for Dorothy Day in leading the Hi-School females? He not only offers us on what the modern club work, but also education on how to conduct their lives affairs.

Short is really in a rut. He not only gets into rut but he has a bad bedroom appears too.

Millie still hasn't given up hope of educating that dog of hers.

Fat is happy again. The reason of course is that Art is over the children put. They're got two weeks to make up for.

How'd you break your glasses, Parrie. Did you forget to take them off?

All boys are ordered to take their hair off in the school. This includes our Van Chief too.

Even if Miss Hahn is tired on Friday, they should maybe sleep over the week and make her as fresh as a daisy on Monday.

As much as we like to admit it we're going to miss you, Paul. (sob)

Shen really has a thiner. Either the worms in flowers are so big, or the worms seem to be.

Card of Thanks

We wish to thank those friends who sent flowers, cards, and other gifts to him, during his prolonged illness in hospital.

Mrs. West and family.

**Britain's Super Spy On
German Army Staff**

London—More light was cast on the shrewd career of Lt.-Col. Alexander Patterson Stewart, British agent, against whom details were furnished by a German newspaper as "one of the most successful spies of the two world wars."

Col. Stewart's career was fully revealed in February, when it appeared in a German review of the two-world wars of Field-Marshal Albert Kesselring in Vienna. It described the secret and spectacular work he carried out for the British during the two wars as British agent.

On December 10, 1914, Col. Stewart was "blown" in the "Shoemaker Blowing," in a general attack, described that Col. Stewart served with the German General Staff in both wars. He was a young man, Col. Stewart, a nephew of George Bernard Shaw, served for seventeen years as a volunteer in the German colonial forces in Southwest Africa before World War I, according to the newspaper article. As a native-born Englishman, however, he was interested when they broke out, but he became a good friend of the German commandant and participated later in surrendering the German fort to the British in 1918.

where his life was successful until the outbreak of World War II. He was sent to Germany immediately by the British intelligence service, according to the report. On the basis of his voluntary service in the colonial forces and his good connections among German army officers, he was again taken on by the German High Command without any suspicion of his secret identity. For five years he served in all its branches and kept the British War Office posted on important developments.

Revealed by Shaw
Having returned, the last Crusade in the first war, he was awarded several high decorations in the report. Throughout the second world war he continued to return every year to England "to live" in his life with, who visited in a multi-time feature. According to the newspaper account, another Col. Stewart's wife was his friend in Berlin and was suspected that he was serving within the German High Command.

Shaw the end of the war, Col. Stewart has been assigned to the command of German staff officers imprisoned by the Allies.

QUADRUPLY CALVES

THREE HILLS, ALTA. WEDNESDAY, MAY 7th, 1947

WHAT TIME IS IT?

For the past two weeks our community has been in a turmoil. Not a meteorological but a had storm, but the big upsurge as a result of everyone being an hour late.

One might wish, as usual, to hear his favor to news cast or program on the radio, generally he has missed it. You might even miss your lunch, as is often the case of the commercial traveller.

One week ago our council decided that we, as every one should operate on daylight saving time. A proclamation was issued and the next day, Wednesday, thus making things a little more complicated.

A majority of Alberta towns have taken to "fast time" at least things are uniform and the only inconvenience is the transportation set-up; they still operate on "slow time". We who remain on standard time are straining along with our travel system, but are most reasonably not on the same track as the rest of the world.

"Why should we have daylight saving time at all?"

A question that cannot always be answered with a sound reason. Now that it is inaugurated, uniformity with your key-time might be a solution.

What ever the case may be we won't all agree. No we say "What time is it?"

Wedding

Roanborough—VanDoren

A delicate Venetian lace gown adorned our bride with a shimmer and a sweeping train. The bride was Mrs. Margaret Emily VanDoren on Friday for her marriage to Mr. John VanDoren.

Roanborough Tony and the bride were the center of attention and the most lovely wedding was held. To complete her costume the bride wore matching lace mitts and a full length French veil which had been worn by her Aunt Mrs. J. Hume's late daughter.

The bride's only bridesmaid was a young girl, the girl of the groom, and she carried a bouquet of white roses and lilies.

The former Miss VanDoren is the granddaughter of Mr. George VanDoren and the late Mrs. M. VanDoren. Mr. Roanborough is the eldest son of Mr. and Mrs. L. H. VanDoren of Port Alberni, B.C.

The ceremony was performed at the home of the bride at 1001 10th St. by Rev. H. H. Mendenhall. The bride's only bridesmaid was a young girl, the girl of the groom, and she carried a bouquet of white roses and lilies.

PUELLINO

The vagabond youth named himself in the dentist's chair to have a tooth extracted. He wore a wonderful striped silk shirt and an even more wonderful check suit. He also wore the recent stare that he often gave with both.

"I'm afraid to give him gas," said the dentist to his assistant.

"Why?" asked the assistant. "Do you think his heart is fragile?"

"No," said the dentist. "Just look at him. How will I know when he is unconscious?"

Don't Neglect Alfalfa Because of Fear Of Bloat

J. K. Birdsell, supervisor of Crop Improvement, says that some Alberta farmers are putting up a real bet in not raising alfalfa because they are afraid of bloat in their cattle, in spite of the fact that there are many farms with large alfalfa pastures where cases of bloat are practically unknown of. Alfalfa is the good crop to feed because of fear of bloat. If the following precautions are put into practice, the danger of bloat from alfalfa will be considerably reduced.

Have a high proportion of grass in your pasture mixture. Before turning your cattle in for the first time, give them a good feed of dry hay.

Never turn hungry animals into a pasture containing alfalfa.

Have a supply of dry hay or straw in the pasture at all times.

Always have water available. Turn your cattle for alfalfa if you don't feed hay first. When they start to eat again, their rumens supply on alfalfa.

The supply of forage crop seed is dwindling rapidly, but some alfalfa seed is still available. Your District Agriculturalist can tell you where seed can be obtained, and he will be glad to give you all the information you need about this valuable crop.

Theatre Notes

We are very sorry to announce that we will be unable to get the picture "The Enchanted Forest" which was to play here on May, 29-30-31 and have substituted for it "Wake Up and Dream", a fantasy with music in color. This is the first showing of this picture after Calgary.

Selection of Swine Breeding Stock

Progressive breeders are increasingly careful to select their breeding stock. They are not only concerned with the physical attributes of the animals, but also with the heredity of the stock and the influence of the environment on the performance of the stock. The breeder must select stock that will produce the best possible results under the conditions of his own farm. This is a task that requires a good knowledge of the principles of heredity and a keen eye for the selection of the best stock.

First economy is important, and a breeder should select stock that will produce the best results at the lowest cost. This is a task that requires a good knowledge of the principles of heredity and a keen eye for the selection of the best stock.

Mr. Truman Fears Farm Land Boom

President Truman's warning that the nation is heading for a farm land boom is being taken seriously by many farmers. He said that the government is spending too much money on farm land, and that this will lead to a boom in the price of farm land. SANDY Simpson has been patiently improving his dairy herd. He saw his chance to buy a pure bred bull—the manager of his bank had him the ready cash to close the deal. Now he's expecting good returns for his milk; expecting to see his long winning her close as next year's Fall Fair. A few more like her and he can show his milk production rising—as well as his extra income from selling his surplus stock to neighboring farmers.

Branch banks, in rural communities across Canada, help to build prosperous farms . . . and at the same time help increase the flow of funds to family tables both at home and in distant lands.

New Record For Co-op. Business

During the 1946 crop year the Canadian Co-operative Association and its member co-operatives achieved a record in business volume. The total value of goods and services sold by co-operatives in 1946 was \$1,000,000,000, a record for the industry.

The record was achieved by the co-operatives' success in selling a record volume of goods and services to their members. This was due to the co-operatives' success in selling a record volume of goods and services to their members.

Jewish Faith Keeps Wedding Traditions

Despite the passage of time, Jewish wedding traditions remain strong and cherished. These traditions include the breaking of the glass, the exchange of vows, and the lighting of the candles.

The bride wears a traditional white gown and a veil. The ceremony is often held in a synagogue or a private home. The groom places a ring on the bride's finger, and they share a kiss.

some words of praise
FOR
CHEVROLET

WHEN people are pleased it's natural for them to say "thank-you". But service, especially, when you get service here as pleasant as these lovely words to me as a **Big Chevrolet**. Their customer "Thank-you" letters mean to them every word and every of the **Chevrolet**—from their operation and maintenance, their performance, its every trade and comparison. And each letter here is a different way of saying "I have seen from experience that Chevrolet's general trend is to give you—only Chevrolet offers Big Car Quality at Low Cost!"

The greatest demand for the Chevrolet is coming on different roads. It comes from the fact that the Chevrolet is the most popular car in the world. It is the car that everyone wants to own.

Alberta Wheat Pool Elevator and 2 Annexes Burned

The huge Alberta Wheat Pool elevator and two annexes here were completely destroyed by a Friday afternoon fire that took 4,000 bushels of grain in it. The total loss was \$10,000. Cause of the fire is unknown. The loss, which was first noticed under the flow of coal to the annexes at 10:30 pm, engaged the efforts of 100 volunteer fire fighters bringing barrels from Truelove, Anne and the Hill School to assist the town's firemen. The flames threatened the local Loring Medical & Furrier elevators. The fire was extinguished by 11:30 pm, leaving the main elevator and two annexes completely destroyed. The fire was caused by a gas leak in the main elevator, which was caused by a gas leak in the main elevator, which was caused by a gas leak in the main elevator.

Firemen, some using fire extinguishers, were in control of the fire. The main elevator was kept from burning by the action of Cpl. Kirkberg of the R.C.M.P. Troop, who acted at several levels to contain the fire. The fire was caused by a gas leak in the main elevator, which was caused by a gas leak in the main elevator, which was caused by a gas leak in the main elevator. Our Half Acre

By J.G. McBride

This is the time of year that patches of Canada Thistles are showing up in full bloom in the fields of grain. Farmers are advised to cut them out before they are formed and scattered all over the field. When thistles are in bloom the plant is at its weak stage. If thistles are cut when in bloom and then ploughed or tilled at least twice before sowing a good deal of progress will have been made toward their eradication. When this system is followed with other good summer-fallow next year or a good summer-crop the thistles in most cases will be much reduced.

Card of Thanks

We wish to thank the Local Fire Brigade, the brigades from Armo, Truelove and the Prairie Bible Institute. And a special thanks to Cpl. Kirkberg and his men who were in saving the Mainland and Pacific Elevator from destruction by fire last Fri. Mainland & Pacific Elevator, Corp. Ltd. Rev. R.G. Crum

Firewater...

The blaze that last week claimed the local Alberta Wheat Pool Elevator could have, under windy conditions, wiped out the town - We were most fortunate.

The nearby Oil Warehouse and Elevator were saved, only by the tireless efforts of volunteer fire fighters, with very little equipment, and an inefficient water supply. (Lord knows, those who hauled water did their best.) Houses East of the fire were watched constantly, small flames were extinguished with wet sacks or by bucket brigades, an ineffective method had almost been seen as it were.

What a feeling of security to have a hydrant close by with plenty of water pressure to combat one of our worst enemies - FIRE. Surely we are not going to stand between our town and its water system, whether the source be a river, a dam on the creek or a well.

Must we have one of those lessons periodically to remind us just what a fire can do. To coin a well known phrase: Let's get wot I Rush the waterworks.

OUR COMPLETE SHORT STORY—

GOOD COMPANY

By MICHAEL ARNOLD

It was a hot day in the city, and the sun was shining brightly. The streets were filled with people, and the air was thick with the smell of summer. A young man was walking down the street, looking thoughtful.

He was a young man, not yet twenty, with dark hair and a serious expression. He was wearing a simple shirt and trousers, and he was walking with a steady gait.

He was walking towards a building that he had just finished building. It was a small, one-story building with a red roof and white walls. It was a simple, functional building, but it was his pride and joy.

He was looking at the building with a sense of accomplishment. He had worked hard on it, and it was finally done. He was proud of what he had achieved.

He was walking towards the building, and he was feeling a sense of peace. He had found his purpose in life, and he was happy to be doing it.

He was walking towards the building, and he was feeling a sense of pride. He had built something that was his own, and he was proud of it.

He was walking towards the building, and he was feeling a sense of joy. He had found his place in the world, and he was happy to be there.

He was walking towards the building, and he was feeling a sense of fulfillment. He had done what he set out to do, and he was proud of himself.

He was walking towards the building, and he was feeling a sense of peace. He had found his purpose in life, and he was happy to be doing it.

During it was discovered that there are two varieties of fall rye that are being grown in this district, namely, Danish or Canadian rye and Russian or Roumanian rye. The Danish (fall rye) seed is smaller than the Roumanian rye seed and therefore is quite easily distinguished.

Special attention was given to these two varieties when making the survey in order that it might be established which of the two is the most suitable for this district.

Making Good Hay
The first rule in making good hay is to get it right from the start. That is the opinion of E. B. Davidson, of the Alberta Department of Agriculture, who says that the quality of hay made in the province is largely determined by the way it is made. He says that the best hay is made from the best material, and that it is made in the best way. He says that the best hay is made from the best material, and that it is made in the best way.

Modern Weed Killers Won't Do Away With Seed Cleaning Plants
The use of modern weed killers will not do away with the need for seed cleaning plants. This is because weed killers only kill the weeds that are growing in the field, and do not kill the weeds that are in the seed. Therefore, seed cleaning plants are still necessary to remove the weeds from the seed.

Postum is a healthy and delicious beverage that is perfect for the times when prices are high. It is made from whole wheat, and is a good source of energy and nutrition. Postum is also a good substitute for coffee, and is a healthy alternative to sugary drinks.

TRUCK OWNERS PROFITS GO DOWN! COSTS GO DOWN!
The cost of operating a truck has increased significantly in recent years. This is due to a variety of factors, including rising fuel costs, increased maintenance costs, and higher insurance rates. As a result, the profits of truck owners have decreased. However, there are ways to reduce costs and increase profits, such as using fuel-efficient vehicles and maintaining them properly.

TEACH THE CHILDREN THE MEANING OF THE WORD DANGER

Too often a young life is snuffed out by drowning, a child is fatally wounded by firearms, a fire set by little hands playing with matches takes life and property. It is most difficult to remove the causes of accidents, but by intelligent instruction children can be taught that "Danger" is a poor play-mate.

TRADERS

Celebrate their 8th Anniversary in Three Hills, opening a Fine New Store

In 1939 S. J. (Syd.) Dormer, formerly 14 years in the furniture trade in Calgary and Red Deer, started in a small way with his own store in Three Hills.

Today Traders Furniture Store is considered by trade to be one of the largest and finest furniture & appliance stores of its kind in rural Western Canada, serving a district from Delburne to Beiseker and from Morrin and Carbon up to Wimbome. Its growth and success has been made possible by service, honest dealings with its customers and handling the quality products of the following well-known Canadian manufacturers of furniture, furnishings and appliances.

IS IT MUCH HARDER TO BEGGAR?

IT BURNS TO?

—By Chuck Thayer

THAT'S TOO MUCH BURNAGE!! YOU NEED MORE BURNAGE! GET OFF SOME BURNAGE ANYTIME SO I CAN REALLY BURN!

HEY! I'M HERE ARE YOU GOING TO BURN ME?

WOW! I'VE DECIDED YOU'RE NOT A BURNER I'VE LOVE YOU! YOU TOLD THAT YOU'D BURN ME (BURN ME)

—By: Les Cline

Worth working for!

Working the most of work on his new home, Tom thinks of the friendly talk he had with his book manager. "I've got good hard work to do," he said. "I wish a little more money. I can really make a dream come true..."

So Jim got his hand here. Soon, there'll be new home equipment... Improved livestock... a well fitted granary. More work for the community, more farm products, more food for home and export.

Helping people in all walks of life to profit from their own enterprise and industry is one of the chief functions of Canadian banks.

A Bountiful Harvest

Naturally for our own prosperity

in Alberta, we all want abundant crops. But today there are more than ever necessary in a world of shortage.

We hope that your season's labors have been fruitful.

Just a reminder - If equipment is carefully checked when you work is done and safely stored it will come to life

attempts in preparation for next year's work.

MENS' & BOY'S SHOP

THREE HILLS — ALBERTA

Announcing

THE

GRAND OPENING!!

In the spring of 1914, L.J. Kalbfleisch opened up a small business in the infant town of Three Hills catering to the Mens' & Boy's clothing needs. Since that time, by faithful service and fair dealing, he carried on a successful business and was always known for carrying better lines of merchandise.

In August, 1945 the business was taken over by M.S. Kalbfleisch & F. McLaren under the name of "Mens' & Boy's Shop".

On October 14th we will be open for business in our new modernized store where we will be able to give improved and more efficient service to our many customers. We have tried to make this a pleasant place for you to shop and it will still be "The Friendly Store".

As usual we will be carrying all Standard Brand lines of better quality clothing at reasonable prices as is possible under present conditions.

We extend a hearty invitation to all to visit us in our new home where we will do our utmost to satisfy your every need in things to wear. We know you will enjoy looking over our complete stock of clothing and footwear.

On the opposite page are listed the well known lines we carry. Compare these prices before you buy.

THREE HILLS ALTA. WEDNESDAY, OCTOBER 22, 1947

Published at seven o'clock each morning. Post Office Dept. (Ottawa)

WARNING

The Public are hereby advised that the regulations laid down by BY-LAW No. 90 and amendments thereto of the Town of Three Hills, in regard to Building and Moving Events will be STRICTLY ENFORCED.

BY-LAW No. 90 states in part: "That no building Contractor, Builder, Carpenter, Mechanic, Artisan, Labourer or any Person Possessing shall remove or with, erect, such at, or upon the premises or construction of any new building or part thereof, or the repair, alteration or addition to any existing building or part thereof, or make any repairs, allow or make alterations to any existing building or part thereof, within the limits of the Town, or MOVE any building into or from any part of the Town to another, until a Permit in compliance with the Town By-Laws has been given in Writing."

"Every dwelling hereafter erected or enlarged shall be of the full value of one Thousand Dollars (\$1000.00) in materials alone and proper insurance shall be made to the satisfaction of the Town."

Any person found guilty of a breach of the provisions of the By-Law shall be liable to a fine of \$30.00 and costs.

questions in Three Hills, on the
1st, the 1st, it was due to the "Three
Hills" high school dates held in
Three Hills, 60 students were
drawn from by lot, a prize was
won by lot. Thanks first for
taking the lot.

Is there a thing more fun than
winning a prize? Just ask the lot!

MENS' & BOY'S SHOP

THREE HILLS — ALBERTA

Announcing

THE

GRAND OPENING!!

In the spring of 1914, L.J. Kalbfleisch opened up a small business in the infant town of Three Hills catering to the Mens' & Boy's clothing needs. Since that time, by faithful service and fair dealing, he carried on a successful business and was always known for carrying better lines of merchandise.

In August, 1945 the business was taken over by M.S. Kalbfleisch & F. McLaren under the name of "Mens' & Boy's Shop".

On October 14th we will be open for business in our new modernized store where we will be able to give improved and more efficient service to our many customers. We have tried to make this a pleasant place for you to shop and it will still be "The Friendly Store".

As usual we will be carrying all Standard Brand lines of better quality clothing at as reasonable prices as is possible under present conditions.

We extend a hearty invitation to all to visit us in our new home where we will do our utmost to satisfy your every need in things to wear. We know you will enjoy looking over our complete stock of clothing and footwear.

On the opposite page are listed the well known lines we carry. Compare these prices before you buy.

Labour Retains Another Seat

London.—The Labour government in power since 1928, retained its seat in the House of Commons last night in a close battle with the Conservatives, after a long and bitter struggle. The Labour government, led by Mr. Ramsay MacDonald, defeated the Conservative government, led by Mr. Stanley Baldwin, by a majority of 10 votes. The Labour government's victory was a significant blow to the Conservative government, which had been in power since 1924. Wedding

Phillips — Peterson

A quiet wedding took place
 Sept. 27th at the home of the bride's
 parents, Mrs. J. C. Peterson, in
 morning. Mrs. Peterson, only
 daughter of Mr. and Mrs. F. C.
 Peterson of Three Hills, and Paul
 E. Phillips of Portland, Oregon.

The bride wore a mod and was
 escorted with black accessories
 and carriage of red roses. The
 bride's only attendant was
 Miss J. Phillips who wore a grey
 gown with black accessories
 and yellow carriage.

Ray Peterson, brother of the
 bride was groomsman.

A reception was held at the
 home of the bride's parents. A three-
 course wedding lunch centered the
 tables with 150 guests present.

Following their honeymoon at
 Vancouver they will reside at
 Queen Charlotte Island.

Lorine Erbet

Guest at Shower

A very pretty shower was held
 in the United Church Banquet
 room in honor of Miss Lorine Erbet,
 a bride elect of the month. For the
 program Gladys Riley and Ar-
 thur Taggart sang solos. Mrs.
 Cameron and Violet Tice gave
 readings.

The toast to the bride was given
 by Mrs. Cameron. Wanda Threl-
 land acted as the bride's maid,
 and was assisted in carrying the money
 lovely gifts.

After which the bride was
 cordially thanked everyone a
 dainty lunch was served to bring
 the evening to a close.

YOUTHFUL IMMIGRANTS START JOURNEY TO THE AUSTRALIAN — A group of 100 young people, mostly from the United Kingdom, are expected to arrive in Australia next month. They are the first of a group of 1,000 young people, known as the "Young Australians," who are being sent to Australia to live and work. The group is being sent to Australia by the Australian Government, which is paying the cost of their travel and accommodation. The young people are being sent to Australia to live and work with Australian families. They will be given a chance to learn about Australian life and culture, and to gain experience in the workplace. The group is being sent to Australia as part of a program to promote understanding and friendship between Australia and other countries. The program is known as the "Young Australians" program, and it has been running since 1963. The program has been very successful, and it has helped to build strong relationships between Australia and other countries. The young people who have been sent to Australia have gone on to become successful in their careers and in their lives. They have also become active citizens of Australia, and they have helped to build a more diverse and inclusive society. The program is a testament to the power of youth and to the importance of international cooperation.

ANNOUNCING A NEW SERVICE TO SAVE YOUR TIRES

Our Best Dy-Namic Wheel Balancing Service can give you greater tire mileage. Unbalanced wheels are panted and bump away good tire rubbers. We can stop this wasteful wear.

Our Best Dy-Namic Balancer tests wheels at all speeds up to 100 miles an hour. The electric "Spark Dial" reveals the amount and location of every source of unbalance.

Tires are valuable, why waste them? Don't delay. Come in today for an inspection.

C.C.F. Adopts Election Plans

Concluding a three-day convention at Edmonton the Alberta C.C.F. party adopted recommendations that will form the party's platform in the next provincial election.

With regard to national resources the platform calls for the active participation of all Canadians in the development of natural resources in the province, except land used for agricultural purposes.

The program calls for a provincial system of education with the service to be extended to all rural areas, a free training as rapidly as possible.

The C.C.F. also favors legislation to provide security for the farmer against crop failure in the province.

The program for education calls for reduction of at least 50 per cent of education costs by the provincial government and provision for free educational opportunity to all children.

The convention set as its goal complete free national and hospital services, establishment of a provincial labor department with the power to charge and the establishment of a national labor code.

The meeting wound up with the election of Clifford E. Law and W. B. Smith as Alberta representatives on the national council of the C.C.F.

ARMED COMBAT

Driving along a narrow road, a five ton truck suddenly came into view on an outside track. A hail of bullets fell on the side of the truck and it stopped. "What do you think you're doing? You ought to be driven a mule's ass."

"And you ought to be driven a mule's ass," came the quick reply.

May we at this time express many thanks to our customers of Three Hills & district for their kind patronage during the past. May the future be as bright for our successors.

Hi-School Hi-Lites

Well we've been at the old grind - I think we need a holiday to recuperate - from the holiday!

We are very glad to report that our "Formal" was a great success. People are wondering where the "High School" came in, only about half the students showed up to support it. Come on kids you can make a better showing than that.

We have Vicky has been holding up the name of Three Hills. Hi-School by scoring two goals in the P. W. Hockey game at Trochu the other night. Good job Vicky.

There will be a Board of Trade meeting in the town hall on Tuesday Jan. 13th. at 8 P.M. Every interested party is strongly urged to attend.

An Important Task

It has been said in the past that the most important task of a citizen is to be a good citizen. This is true, but it is not the only task. There are many other tasks that are just as important. One of these is to be a good neighbor. This means that you should be kind and helpful to the people who live near you. You should also be a good citizen. This means that you should be honest and fair. You should also be a good worker. This means that you should be diligent and hardworking. These are all important tasks that every citizen should strive to do.

Important Task For Canada Now

There has been a lot of talk about the importance of the war effort. But what is the most important task for Canada now? It is to be a good citizen. This means that you should be honest and fair. You should also be a good worker. This means that you should be diligent and hardworking. These are all important tasks that every citizen should strive to do.

Should Profit From Inflation?

The question of whether or not it is right to profit from inflation is a difficult one. On the one hand, it is true that inflation can lead to higher prices for goods and services. This can be a problem for people who are on fixed incomes. On the other hand, it is also true that inflation can lead to higher wages for workers. This can be a benefit for them. So, the answer is not a simple one. It depends on the circumstances.

Grandmother Knows

When it comes to the war effort, there is one person who knows more than anyone else: the grandmother. She has lived through many difficult times and she knows how to get through them. She is a source of strength and wisdom for her family. She knows how to make the most of what she has and how to help others. She is a true hero.

Model Derby Form An Memorial To Soldier's Son

FUNNY And OTHERWISE

There are many funny and interesting stories out there. One of them is about a man who was caught stealing. He was taken to court and the judge asked him why he had done it. He said that he was hungry. The judge then asked him if he had any money. He said no. The judge then told him that he was free to go, but that he had to find a way to support himself. This is a story that everyone can relate to.

PIONEER ANNOUNCES DISTRIBUTION OF FORTUITOUS PROFIT ON OATS AND BARLEY SOLD UNDER PRICE CEILINGS

Five customers of 'Pioneer' Elevators are requested to call at the elevator and receive a cheque covering an additional payment on oats and barley delivered during the current crop season between August 1st and October 21st, 1947, when price ceilings were in effect.

This payment is an interim distribution of the fortuitous profit made by the Company on oats and barley which it had on hand, and handled, when price ceilings were in effect on October 21st.

This payment is 12 cents on oats and 10 cents on barley.

Final payment will be made at a later date.

IT PAYS TO PULL TO THE 'PIONEER'

The government has also promised to make some adjustment in farm income on oats and barley delivered at ceiling prices between August 1st and October 21st, 1947. We trust they will be able to do so.

Wants Five-Year Closed Season On Wild Fowl

Harvard Scientist Advocates This Measure In Order To Conserve Birds

Cambridge, Mass., March 14.—(AP) A Harvard scientist has advocated a five-year closed season on wild fowl in order to conserve the birds. Dr. H. W. Henslow, of the Harvard Museum of Natural History, has proposed this measure as a means of protecting the birds from over-hunting and from the effects of the war.

Dr. Henslow has pointed out that the war has had a serious effect on the wild fowl population, and that the birds are now in a state of depletion. He has proposed a five-year closed season as a means of allowing the population to recover.

The closed season would apply to all wild fowl, including ducks, geese, and cranes. It would be in effect from the first of January to the first of July each year.

Pink Winning Apron

For the first time in the history of the world, a pink apron has won the prize. The apron was made by a woman named Mrs. J. H. Henslow, of Cambridge, Mass. It was made of pink fabric and had a simple design. It was entered in a contest held by the Harvard Museum of Natural History.

The contest was held to raise money for the museum. It was open to all women. The prize was a \$100.00. Mrs. Henslow's apron was the only one to win the prize.

Our Half Acre

2410 and WILD CONTROL
Recommendations made at the Rogers Wood Conference and contained in the Trochu, Kewen Conference may read to 2410 spraying was as follows:

1. Spraying of wheat, oats and barley crops should not be delayed until the grain is at least a height of two inches or has been above the ground for three weeks and should not be done after the grain has reached the advanced blade stage. This should not be sprayed until it has reached a height of one inch and not after the first has reached the advanced blade stage.
2. Annual weeds are more easily killed by 2-4-D than they are by 2-4-D and certain weeds require higher concentration in order to kill them.
3. The rates of application are recommended by the manufacturers should be followed very closely. Insects are likely to be done if we apply them as much as 4. Perennial Saw Thistle and Canada Thistle are more readily killed when they reached the bud stage. Applications for perennial weeds should be heavier than that used for annual weeds.
5. Chemical warfare is not recommended except in very specific cases.
6. All weeds are not susceptible to 2-4-D and certain weeds require higher concentration in order to kill them.
7. Experimental work has shown that Royal and Dakota (last) are more resistant to 2-4-D than other commoner grain varieties.
For rates of application of 2-4-D for specific weeds consult the Field Experiment or N. P. Ball, District Agriculturist, Drumboiler.

R. E. Crowe, barometer, will be at Three Hills Hotel on Saturday Feb. 7th and Saturday Feb. 16th, and thereafter each first and third Saturday of each month.

FRANCHISE'S POP—This Changing World

Progress in Research

RECENT progress in research in Canada was outlined at the annual meeting of the National Research Council, held at the end of 1967 at a time when the products of Canadian research and development are being put to use in a variety of ways. The National Research Council is constantly carrying on investigations and research in a wide range of fields, and the results of its research are being put to use in a variety of ways. The results of its research are being put to use in a variety of ways.

Important New Field Of Work

In addition, there is the important work being done in the new field of atomic energy which is being developed in Canada. This work is being done in a variety of ways, and the results of its research are being put to use in a variety of ways.

On Fuel Value To Producers

Dr. C. J. Macdonald, president of the council, said recently that at least one per cent of the national gross product is now being spent on research and development. This is a significant increase from the 0.5 per cent that was spent in 1950. The results of this research are being put to use in a variety of ways.

UP IN SMOKE

1. 100 ± 10 mg of tobacco (10-20 kg) is used to produce 1 kg of cigarettes. The tobacco is first dried, then cut into small pieces, and finally packed into cigarettes. The cigarettes are then smoked, and the smoke is inhaled. The smoke contains various chemicals, including nicotine and tar, which are known to be carcinogenic. The smoke also contains carbon monoxide, which can be harmful to the heart and lungs. The smoke is also a major source of air pollution.

Sales increase

The year 1947 showed substantial increases over '45 and '46 in Yen Sales, the total volume of Yen doubled the average amount from 1940 to 1946.

Thus far, from the first time introduced Yen depended for their use on two main factors, a supervision of quality of the product and advertising to the consumer.

Bride Honored at Misc'l. Shower

The Presbyterian Church was the scene of a very pretty shower Wednesday, March 24th in honor of Marion Beaman a bride of the month.

The bride's table was appointed, lay decorated with yellow and orange streamers and Easter Bunnies to create cheer.

Volunteer acted as M.C. and a short program and committee were enjoyed by the many ladies present.

The gifts were carried in, in a basket brought by Eva Brown and Mae Quaker, sister of the bride.

The bride was assisted in unpacking the gifts by Mrs. Bickel, the groom's mother and Mr. Schuler, sister of the bride.

The evening started after a delicious lunch served by many of the ladies present in the hall.

OUR COMPLETE SHORT STORY

ANTIQUE TABLE

By EDWIN S. MERRIN

THE antique table was the first of its kind. It was a masterpiece of craftsmanship, a work of art in itself. The table was made of the finest materials, and it was finished with the most exquisite care. It was a table that had been passed down from generation to generation, and it was a table that had been loved by all who had seen it.

Handling money costs money

It costs you more to live these days. And it costs your bank more to provide efficient banking service.

Bank staffs are more than half as large again as before the war; payrolls have nearly doubled. Years are up. So is the cost of everything banks buy.

Yet you pay no more for banking service than you did ten years ago. Today 7,000,000 Canadians are bank customers—striking evidence of the over-riding usefulness of competitive banking in our national life.

Britain's Recovery Programme

IN THE RECENT NATIONAL ECONOMIC SURVEY published by the British government, the people there were more realistic of the extent of their debt than previous estimates and were told of the expansion programme for recovery which must be carried out in the coming months. It was a far more realistic picture of the need for more recovery than the one that has been put forward in the past. The survey also pointed out the need for more recovery in the coming months. It was a far more realistic picture of the need for more recovery than the one that has been put forward in the past. The survey also pointed out the need for more recovery in the coming months.

Main Object To Save Dollars

In view of transportation difficulties and fuel shortages, industrial production in Britain rose in 1937 by only one per cent over that of 1936. The survey was due in part to a voluntary recovery programme in which many firms agreed to cut production. It was a far more realistic picture of the need for more recovery than the one that has been put forward in the past. The survey also pointed out the need for more recovery in the coming months.

Targets Set For Industry

It is true that the British industry will produce 80 per cent more goods and services than in 1937, and that production of motor vehicles will rise by 70 per cent above that of 1936. The survey was due in part to a voluntary recovery programme in which many firms agreed to cut production. It was a far more realistic picture of the need for more recovery than the one that has been put forward in the past. The survey also pointed out the need for more recovery in the coming months.

The novelty of huge production of items, brought about by a higher standard
of living has often meant, sadly enough the sacrificing of art. Glass is, perhaps,
the most flagrant example of this. It's a far cry from the glass blown of ancient times
to the huge furnaces and presses of today that manufacture the utility bottles,
jars and other articles that the busy housewife with her knowledge of sanitation
and hygienic housekeeping. Where one artisan took hours to produce one article,
today 40,000 bottles can be produced every 24 hours by one company alone.

Hand-cut crystal and cut glass are still obtainable, of course.
But for ordinary use, easily manufactured glass stands in the limelight with its
unbreakable or heat-resistant qualities. The local variety store is the place to buy
utility glass. Cooking and baking dishes of all descriptions, nursing bottles, picture
and window glass add ornaments of every kind can be bought at low cost, increas-
ing the ease of housework and emphasizing production.

Knox United Will Hold 2nd Annual

The Evening Auxiliary of the Knox United Church will hold their second annual bazaar and musicale on Tuesday, May 18. Bazaar will be open from 2 to 7 p.m. The musicale will consist of a number of events by members of the church, and other artists.

Rumors are Flying

Rumors, rumors & wild stories all add color to the dull life of a merchant who has to sit in his store and wait every day for his life. But in the case of Bill Ferguson of the Lumber Store, things have gone too far. Bill informs us that his local funeral home does not take any advantage of the local storage facilities.

H.S.A. Will Meet on May 26th

The Home School Association will hold their 1948 meeting on Wednesday, May 26th instead of May 21st. The change in date is made in accordance with the play bill presented for on May 21st. Plans to attend these Home and School Association meetings, they are parked with us for every-one. Please remember the date - Wednesday May 26th.

W.A. Food Sale May 29th

The Women's Association will meet on Thursday May 13th at the home of Mr. J. Hunter, Mr. DeLongue and Mrs. T. Swanson will host the banquet. Voluntary welcome. Remember the W.A.'s Food Sale on Saturday May 29th.

IT'S THE CANADA GOOSE PARKA

Two young women, likely the models for the Canada Goose advertisement, are shown from the chest up. They are wearing dark parkas with prominent fur-trimmed hoods. Each woman is holding a white, disposable cup. The image is split vertically down the middle, showing two identical halves side-by-side. The background is dark and out of focus.

CANADA GOOSE SHOWS HOW TO STAY WARM

Canada Goose parkas are made from the finest fur and the highest quality materials. They are designed to keep you warm in the coldest weather. The parkas are available in a variety of styles and colors. Visit our website at www.canadagoose.com for more information.

THOSE BEAUTIFUL BANGS!

Johnny comes racing into the house with an anticipant and excited gleam in his eye. "Mom, can I have a quarter?" he asks as he hands for the cookie jar.

Mom, "MAY I have a quarter?" coverts Mom. "Please Mom, MAY, I have a quarter?" asks Johnny with his mouth full of cookies.

Johnny explains, "The kids have been talking about Fire-Cracker day next week and Fire-Cracker and sparklers and stuff and I need some too and can I have a quarter please Mom?"

Mom knows that Johnny is'at too much of a hand at shopping yet, but she promises that tomorrow, when she is downtown, she'll visit the variety store and purchase some fireworks for him. Mom knows that small boys love bangs and noises created by themselves; and she also knows that she can find the best bargains in fireworks at the variety store. The next day, when Mom inspects the fireworks display on sale, she spends more than a "quarter". She has fun imagining his pleasure that she invests in firecrackers, sparklers, rocket, fountains and bangs—and with a little angle, adds a cup gun and a supply of caps.

The use of 2.4 with its various forms for controlling weeds in growing crops has opened a new era in agricultural horticulture. It is selective and harmless and when sprayed on to certain crops certain broad leaved weeds are destroyed.

Forms 2.4-D and 2.4-E in white or suitable powder and it was necessary to mix it with a base solution of 2.4-D and 2.4-E in a suitable volume in water. These leaves are used and common, only these are in formulations 2.4-B, 2.4-C, 2.4-D and 2.4-E. The (2.4-D and 2.4-E) is done a long, not so effective on resistant weeds and readily absorbed by rain. The Active leaves are slightly less effective and are readily absorbed by rain. The Extra formulation was a long tag not so effective as the rain and are removed after the rain.

Generally speaking annual and

are more or greater during early stages of growth than in late-growth stages. The results of the present study indicate that the maximum yield results annual weeds should be sprayed from the twelfth to a third stage. Hula can be obtained a few times per period, however, it is not recommended that it therefore be more costly.

Practical measures show a greater variation in reaction to 2,4-D than the other two species. The results of the present study show that 2,4-D is more easily killed than sprayed in the early stage to flowers a stage.

The time to spray is determined by the growth stage of weeds. (1) when the growth stage of the weeds under (2) when the weed is up to its most recent stage stage. When used, note and indicate the growth stage of weeds. If they are five inches or have been above ground for 2 weeks, it should not be treated after the grass has reached the jointing stage. This should be the critical period when weeds should be treated. If weeds are not reached a height of four inches and should not be treated after the

building signs.

"PIONEER'S" ADDITIONAL PAYMENT ON OATS AND BARLEY

Some months ago we made an interim payment of 12¢ in oats and 10 cents on barley, and advised all customers that final payment would be made later.

Checks are now in the hands of all agents for the final distribution. It will be appreciated if you will call and pick up your checks.

The payment plus the initial interest payment makes a total of 13½% per bushel on oats, and 16½% per bushel on barley.

We are happy to announce that "Pioneer" customers are receiving more per bushel than the distribution made by any of our Pool or Line elevator operators in Saskatchewan or Alberta.

IT PAYS TO PULL TO THE "PIONEER"

The Federal Government promised to make a payment to farmers on oats and barley, delivered of oats and barley between September 1st and October 31st, 1935, after the Elevator Commission had made an adjustment. This has now been done and we therefore thank the Federal Government with appreciation for the payment to the new basis.

A Tribute to Agriculture

In the last reckoning all things are brought with food. Our civilization is brought with food; our industrial achievements as a province; a nation; our cultural advantages; our recreation. Food, abundant and adequate, is necessary to support our civilization.

The food produced on Alberta farms is the main source of the annual wealth production of the province.

The total new wealth produced from Alberta's field crops in the past eight years was \$1,735,000,000, an annual average of \$217,000,000.

The grain Alberta farm cash income in the past eight years was over two billion dollars, an annual average of \$250 million.

The Alberta Wheat Pool publishes these statistics to show to Alberta people the value of the agricultural industry.

The Wheat Pool is a farmer-owned co-operative operating 47 country elevators and 2 terminals. Pool elevators have provided exceptional service to Alberta grain producers.

Education And The Future

THE THEORY THAT THE TRAINING of the youth is the greatest importance to the future of our country has long been an accepted fact and education has been the prime concern almost everywhere. This is true in Canada, where in most communities almost all attention is directed to the education of the children. Today the education of the future, president of the University of Toronto and its outstanding educationalist, the Canadian Youth Commission has been working in earnest to coordinate with education in this country, and many connecting and developing links have been quickly made to the results of their studies.

Abstracts Highlight To Professionals

For attention to the most forward communities can be identified in all Canadian children everywhere. The abstracts of the studies of the Commission that the abstract of each report will be intended to be a presentation and thus attention directed to the health of children in the future, it also recommends that parents should be developed to meet the needs of the children in the future, with the object of fitting them out to be able to maintain themselves in society.

The Need For New Schools

The need for new schools has also been discussed and it was agreed that before school buildings should be provided and that the school should play a more important part in the life of the community. The necessity of physical education and for education of improvement through the use of these suggested are to be made, new attention to the health of the community. Other educational bodies have made similar recommendations from time to time regarding the need for improving conditions in Canadian schools. It is important that both of these to recognize for many of the shortcomings in our present system, and that larger areas of public money will have to be earmarked for education before there can be any great improvement. The Canadian Youth Commission and other educational bodies who have constructive criticism on the subject are to be commended for their efforts.

NOT RASHERS?

THE CANADIAN YOUTH COMMISSION has been working in earnest to coordinate with education in this country, and many connecting and developing links have been quickly made to the results of their studies.

INCREASE SEEN IN WATERBORN

AT JACK TRAIN WRECK—Three C.P.R. trainmen died when this freight train hit a box car on the tracks at Jack, Pa., last night. The train was carrying a load of lumber and was moving southward at the time of the collision. The box car was carrying a load of coal and was moving northward. The collision occurred at about 11:30 p.m. and the train was derailed. The trainmen were killed instantly. The wreckage was found about 100 yards from the tracks. The cause of the accident is still under investigation.

MINIATURE AND MODELS

The making of models is one of the oldest hobbies of mankind. The Ancient
Egyptians for example, believed that the human spirit existed after death and was
quite capable of travelling on land, but required assistance across the
waters of the Nile. To take care of this problem the Egyptians buried their dead
with small model boats called "Spirit boats". Another story about model & model
building is described by Hero of Alexandria in the year 120 A.D. This was a model
steam engine, consisting of a boiler & two nozzles. It was so arranged that when
steam was generated and a brass ball placed between the two nozzles, the ball
revolved rapidly. The Englishman, James Watt, built the first condensing steam
engine; Robert Fulton built the first steam boat, the "Clamrent"; and the Wright
brothers, Orville and Wilbur drew the first plane at Kitty Hawk, North Carolina.
Well, there may be no inventory in your family, but little Joe would like to try!
You'll find material and designs for model making in your nearest variety store.

Wedding Paget - Howe

The Miss Church, Three Hills was the center of a very pretty wedding on July 2nd at 2:30 p.m. when the Rev W. J. Hanson, Three Hills, solemnized the marriage of Margaret Irene, daughter of Mr and Mrs Wm. Howe, and Gordon Harold Paget, son of Mr and Mrs Frank Paget, of Swatwell.

To the strains of Laburnum's wedding march, played by Miss Christine Ralston, the bride, who was given a marriage by her father, entered the church, attired in a very elegant gown, styled along Princess lines with beautiful neckline and carrying an arm bouquet of American Beauty roses.

Her long silk embroidered veil was held in place by a coronet of of orange blossoms. Her only ornament was a gold locket, gift of the groom.

Miss Margaret Howe, twin sister of the bride, as bridesmaid, wore an identical gown of blue satin with blue chapel veil and bouquet of pink carnations.

Little Myrna Gies, the groom's niece, wearing a dainty flowered dress, and carrying a Victorian bouquet of roses, acted as flower girl.

The groom's brother, Howard attended him, while Harold Howe and Beverly Paget, attended the bridesmaids. The guests were seated in the church, and the ceremony was held in the presence of some 100 guests.

For the occasion the bride wore a pink flowered dress with black accessories. While the groom wore a grey figured dress with black lace straw hat. Both couples wore Tuxedos.

Food and white promise dessert at the home of the bride's parents where the reception for 60 guests was held.

For their honeymoon, to Calgary and Banff, the bride chose a brown tailored suit with brown accessories and carriage of red color. On their return Mr. and Mrs. Paget will reside near Swatwell.

There is Always Grave Need for Pasteurized Milk

There is probably no single public health measure which has been so effective in saving the lives of infants and small children as the pasteurization of milk. Pasteurized milk kills disease-producing bacteria such as those that cause typhoid fever, paratyphoid, acute intestinal infection (acute diarrhoea), scarlet fever, septic sore throat, and tuberculosis.

From practical experience, it can be concluded that pasteurization means appreciable change in the nutritional value of milk and actually renders the valuable proteins of milk more easily digested.

Agricultural Committee of the Board of Trade Hold Successful Meet.

A well attended meeting sponsored by the Agricultural committee of the Three Hills and district Board of Trade was held in the Elks Hall on Friday, July 16th. The purpose of the meeting was to discuss present day Agriculture problems and the organization of Junior Grain and Calf Clubs.

Mr. E. Yauch, instructor in Field Husbandry and Soils, Old School of Agriculture addressed the meeting on Soil Conservation.

Mr. Yauch stated that while our land had only been under cultivation for 80 years it was already showing signs of deterioration. The speaker outlined certain fundamental practices that should be considered by all farmers so as to be prevented, and provide for the repairing of the damage.

What To Do For SUNSTROKE

The signs and symptoms are — the face is very flushed; the pulse quick and pounding; the breathing is difficult; the patient develops sickness, vomiting, giddiness, thirst; the skin becomes dry and burning. A very high temp. rise, diarrhoea, breathing and immobility (either stupor or coma) may ensue.

TREATMENT

1. If breathing is absent perform artificial respiration.
2. If breathing is present, lay patient on his back with head turned to one side.
3. Raise the head and shoulders.
4. Remove the patient to a cool, shady spot, and strip him to the waist.
5. Sponge the body with cold water continuously, and apply ice bags to the head and spine until the symptoms subside.
6. Fan him vigorously.
7. When consciousness returns give Epsom or Glauber Salts, a tablespoonful to a glass of water.
8. Give drinks of cold water freely.
9. Give no food or fluids whatever by the mouth while the patient is inconvalescent.

Record Attendance of Over 3,200 Witness Baseball Here

Some 3,200 people, the largest crowd on record here, jammed the local ball park last Sunday to witness two ball games staged by the Major League Cardinals and the Three Hills All Stars.

Play was very good but many fans were slightly disappointed at the close of a lot of rain.

The scheduled boys' however, laid out for a return engagement to be played at 6 p.m. Monday August 16 at the local park. A good game is expected and the boys have promised to make up for any comedy the fans have missed by putting on an extra special display. Don't fail to attend this game.

George Jackson Dies in Calgary Hospital

Friends of Mr. George Jackson will regret hearing of his death in the Holy Cross Hospital last Saturday at the age of 66.

Mr. Jackson came to Three Hills about 3 years ago from Calgary. He operated the machine shop with his son. For the past few months his health was failing.

Funeral Services and burial took place in Calgary on Wednesday, August 3rd at 11:30 a.m.

Several members of the Masonic Lodge here, attended to Calgary where they attended the funeral service.

The sympathy of the community is extended to Mrs. Jackson and family at this time.

Local Fire Brigade Answers 2 Calls Monday Afternoon

On Monday afternoon at approximately 1:30 the local fire brigade answered a call to the slaughter house of the Lumber Storage where a fire of unknown origin destroyed some corns and threatened destruction of some of the buildings and a nearby crop. The P.B.I. brigade was also on the scene.

Under the direction of Capt. Miller the flames were soon brought under control.

Again Monday evening at 11:20 volunteers were called to aid in combating a fire in Acme which destroyed the Atlas Lumber Yard and Office causing damage estimated at around \$50,000.

Citizens who remembered the valuable aid given to by the Acme fire brigade, just one year and one day previous, when the local Pool Elevator was destroyed by fire threatening our town, went into action without delay.

The local fire engine and that of the Prairie Bible Institute, aided by every available water vehicle, plus a number of citizens were on the scene in short order.

The multitude of men, after about an hour of frantic labor, confined the fire to the Lumber Yard only and remained on the scene until no further danger was apparent.

Board of Trade Will Meet on Tuesday

The Local Board of Trade will meet at the Canadian Motors on Tuesday, August 10 at 8 o'clock in Every Merchant and every Farmer is urged to attend this important meeting.

The Power Plebiscite

To The Alberta Electors:

On the 17th of this month you will be voting for or against the Province immediately taking over from the private companies the generation, transmission and distribution of power. Before casting a decision you will be asking yourself whether in this instance public or private ownership is preferable. My purpose in writing this letter is not to influence you but only to draw to your attention certain facts which generally are not known or not remembered.

In deciding whether private ownership should now be replaced by government ownership and operation, our experience with the rural telephone system should not be forgotten. As the result of over expansion, under-charging and general mismanagement, the rural telephone system had to be abandoned and a loss of approximately \$10,000,000 was added to the public debt.

To take over the existing power proportion would involve the Government immediately raising somewhere in the order of \$50,000,000. That will only be a start. The private companies, I think you will agree, have had a good record. They have over the years steadily increased their generating capacity, both steam and hydro. During the last twelve months this company has doubled the capacity of its plant at Drumheller, is now building a 7500 k. w. plant at Vermilion, and has substantially enlarged the plant at Grande Prairie. The transmission lines of the private companies serve or are in the course of serving practically every urban community. The rate we charge are fixed by the Board of Public Utility Commissioners and are reasonable.

We have not been unskillful of rural electrification. We realize the great advantage to farming communities of available cheap power. During the last few years, in spite of a very limited number of transmission lines and the world-wide shortage of the necessary plant and equipment over 3000 farms have been supplied with power. The number of electrified farms is steadily increasing. This record compares favourably with government ownership in Saskatchewan where there are only 700 such farms.

There are in the neighbourhood of 60,000 more farms which can be reached eventually. It will be some years, however, before they can all be tied in. The cost to the distributing authority, whether public or private, is about \$300 per farm or an ultimate investment of nearly \$30,000,000 made altogether from the construction of enlarged generating facilities.

It must not be forgotten that many of the farms and ranches in the Province are so located that serving them would involve such heavy capital and operating losses that the cost would be prohibitive.

If after realistic consideration of the situation you are in favour of immediate government ownership, you will so vote. If you believe in private ownership, you will vote continuance of the present system. If you conclude that this very important problem has not received adequate consideration, you will be against taking any action at the present moment and again will vote for the continuance of the present system.

Your vote will be cast, I know, in what you believe will best advance the interests of the Province.

"It's Pool Elevators This Year"

The Alberta Wheat Pool is celebrating its 25th anniversary. The rallying cry is "Make This Year a Pool Elevator Year."

More of the men who participated in the formation of the Alberta Wheat Pool are no longer engaged in farming. The younger generation of farmers may not be as keenly aware of the progress of circumstances which brought about the Alberta Wheat Pool's formation. Nevertheless, they should realize that the Wheat Pool has been a force of strength in Alberta agriculture.

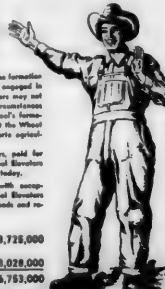

Alberta farmers have, over the years, paid for many an elevator here, but Alberta Pool Elevators is the only one owned by Alberta farmers today.

During operating years, Alberta Pool Elevators has, over the years, paid percentage dividends and returned resources in dollars.

Percentage dividends paid in cash \$ 3,725,000
Percentage dividends paid in reserves \$ 3,026,000
Purchases of reserves from members \$ 4,450,000

What To Do For FAINTING

FAINTING is a condition due to sudden failure of the action of the heart, which may be caused by hemorrhage; or by fatigue, want of food, or a clam or crowded room; or by fright, drows, sudden bad news, or by the sudden relief from fear or anxiety after prolonged suspense.

The signs are: The patient turns giddy and faint; the face is pale; the pulse is rapid and weak, or almost imperceptible; the breathing is quick, sighing and irregular; and the skin becomes cool and clammy.

1. Undo all clothing about the neck, chest and waist.
2. Remove an abundance of fresh air—open windows and doors; keep back crowd; remove from harmful gases or impure atmosphere.
3. Rub the face with hot and cold water alternately, and apply warmth to the pit of the stomach & over the heart; vigorous friction of the limbs upwards has a stimulating effect. Rubbing only may be held to none.
4. If bleeding has been the cause of the condition, guard against its recurrence. The wound will not be held to none that bleeding does not recur when the patient begins to regain consciousness and the heart's action improves; or, if there is no wound look for signs of hemorrhage from an internal organ.
5. If want of nourishment has been the cause of the condition give liquid support.
6. Give an food or fluids whenever the stomach will be patient in immediate.

OUR COMPLETE STORY— And Then It Was Night

By ANN RUSSELL WELSON

It was a quiet night in the city of Three Hills, Alberta, when the lights of the town were still glowing from the day. The stars were out, and the moon was shining brightly in the sky. The people of the town were all asleep, and the only sound was the soft rustling of the leaves in the trees.

The night was peaceful, and the people of the town were all asleep. The stars were out, and the moon was shining brightly in the sky. The people of the town were all asleep, and the only sound was the soft rustling of the leaves in the trees.

BRITISH WORKER HAS NEW SWIM METHOD: "WALKS" ON RIVER THAMES

London, Aug. 24.—A British worker has developed a new method of swimming in the River Thames. The method is called "walking" on the water, and it is based on the principle of buoyancy.

The British worker, who is a professional swimmer, has developed this new method after years of experimentation. He has found that by using a special technique, he can "walk" on the water for long periods of time.

THREE MEN AND THEIR CAR LIVED IN CAR AND LOCOMOTIVE COLLISION — Three men with their 1930 Buick Roadster crashed in a head-on collision with a Pullman passenger car in Terebinth recently. A CNR locomotive was backing toward the crossing when it hit the car. "The first I saw was a black monster up from nowhere, coming to meet me," told one of three in the back seat of the car. Hugh Bethune suffered only arm and back bruises. The other two occupants were William Cherry and Eric Jordan, both of Terebinth.

\$14,000 BLAKE BLAZE MALIBUPTON, ONT. TOURIST LODGE AT HEIGHT OF SEASON — The tourist lodge 11-12 day Inn on Lake Katchewanowigan was hit by \$14,000 fire at the height of its season and some lodge was a total loss. Here it is shown as the famous driver the structure, along with \$12,000 in cash is a bundle of cheques. Chambermaids on their morning rounds after the flames and give them to the 60 guests. Ontario still has; sleeping accommodation in the lodge, untouched by the blaze — S.H. Photo.

U.S. FIRE-POWER GROWS IN OCCUPIED GERMANY — The amazing concentrated fire-power given U.S. infantrymen by such weapons as the highly-mobile recoilless 76 mm. rifle is shown to good effect in a drive in occupied Germany.

I think you may enjoy me. I think all she could say was, "O Dear."

After the ceremony was over, the parade into the country in Duxbury was evening and Elizabeth looked on from a shoulder position of the parade band performing the ceremony and no one, on yet knew about it.

They paraded by a little, curvy stream, and Elizabeth whispered, "I'm glad your pride didn't keep you."

Robinson Associated Store**5c to \$5****GLAMOUR STUFF**

The cosmetic counter of the variety store is a very interesting spot for most young women of the modern world. There they find all the popular brands of lipstick, rouge, powder and creams, and may choose to their hearts content the particular ones most satisfactory to their needs. If they are in doubt, there are color charts displayed which tell them the shades most suited to their complexion and very often the salesgirl herself can advise them; she will do so most willingly.

Cosmetics have been in popular use for many generations. American women have used them since the days of the first women colonists. At that time powdered chalk and fresh nut-brown roots were used to enhance the complexion.

Today's cosmetics have reached a high degree of perfection. They are beautifully blended and are manufactured from pure government-tested ingredients.

Drop into your variety store now and buy a new lipstick in one of the newer, exciting shades.

School Evacuated in 65 Seconds During Fire Drill

David W. Patten, district fire inspector of Calgary, paid a visit to the school on Wednesday, on a routine inspection work. As this is the first evacuation work, about 40 minutes was given to major items.

Mr. Patten visited the Town School and "Patten" a surprise fire alarm. The crowd was promptly emptied of children and teachers in 65 seconds.

Mr. Patten commented on the orderly fashion in which the drill was conducted and pointed out that the 2000 children were reported to vacate in 65 seconds and the time of 65 seconds for the three-story school here is exceptionally good.

Parents will rest assured that in case of fire at the school, no difficulty would result in clearing the building.

Just Like Grown-Ups

One of the things of the day is the fact that children are becoming more like grown-ups. They are wearing more sophisticated clothing and are more interested in the latest fashions.

This is a good thing, as it shows that children are growing up and are becoming more responsible. It also shows that they are more interested in their appearance and are more aware of the latest trends.

One of the reasons for this is that children are now more exposed to the media. They see the latest fashions on television and in magazines, and they want to look like the models.

Another reason is that children are now more independent. They have more money of their own and are able to buy the clothes they want. This gives them more control over their appearance.

It is important for parents to guide their children in their fashion choices. They should teach them to dress appropriately for the occasion and to be comfortable in their own skin.

Children should also be taught to value their clothes and to take care of them. They should be encouraged to wear their clothes for as long as possible and to repair them when they are damaged.

Finally, children should be taught to be confident in their own style. They should be encouraged to express their individuality and to wear what makes them feel good.

By following these guidelines, parents can help their children develop a healthy relationship with fashion and clothing.

Good Seed at Moderate Prices

Many farmers are disappointed with the last year for the wheat market but it should be a good chance for farmers to purchase from this supplier and get a good seed of moderate price.

Seale Agents would be glad to give information to the farmer about the quality of the seed.

School Remarked

On September 23rd two boys, broke into the Three Hills High School and did considerable damage.

Police and parents, belonging to the pupils, were asked as well as school materials. The school was in a state of shoring disorder.

Police kept guard together, but threw on blackboard and doors of other things. However the pupils have been caught and are in a state of shock.

The RCAF

will train you to become
an expert technician

In the post-war RCAF there are many trades which provide ample scope for the ambitious young Canadian to prepare himself for a progressive future in the technical, radio, or clerical fields.

This is the day when the men with special skill and training have the advantage over the others.

The RCAF offers you just the training and opportunity you are looking for.

3000 Tons High Yield
A new method of producing high yield milk has been developed by the University of California. The results show that the new method can produce 3000 tons of milk per acre per year. This is a significant improvement over the old method, which produced only 1000 tons per acre per year.

Much is Done in Schools
A survey conducted in 100 public schools in the United States has shown that much is being done in schools to improve the health of the children. The survey found that 80 percent of the schools had a health program, and that 60 percent of the schools had a physical education program. This is a significant improvement over the situation in 1930, when only 40 percent of the schools had a health program and only 20 percent had a physical education program.

SYMBOLS OF SAFETY

When bullets were fought with
spear and sword, armor af-
forded a measure of protec-
tion. The Knight in Armor
became a feudal symbol of
safety. Then came gunpowder
and suits of armor were only
good for satisfying that. It
is your present day method of
safety clothing.

PONTIAC

Skyrockets to 2nd PLACE

HERE ARE SOME OF THE REASONS WHY...

- Priced with the Lowest
- Amazing Economy and Performance
- Body by Fisher—Sealed from Rust, Brouts and Built for Safety!
- Famous Silver-Stroke Design
- Unquestioned Owner Loyalty

We've said up more Pontiacs than other makes. Pontiac has been proving its superiority. And the latest production figures show Pontiac to second place.

The past seven years of war and economy have been a testing time for every car... and out of the last has come this overwhelming demand for Pontiac. For cars, more than ever before, people know that Pontiac is the best motor car buy—best from all standpoints of price, economy, reliability, and superior owner responsibility. That's why Pontiac is winning second in popularity all across Canada.

We appreciate the goodwill and loyalty of Pontiac owners, and we ask the partners of the great number of people who are leading the way to second place in the motor car of the future.

A Message of Xmas

from C. E. Jones

In the minds of many people we
are approaching the most interest-
ing season of the year. The day is
now celebration, family reunion,
a time when we gather around the
holy manger to celebrate the birth
of the Christ child.

It is a time when we should
remember the poor and needy
who are in need of our help.

It is a time when we should
remember the sick and suffering
who are in need of our love.

It is a time when we should
remember the lonely and
forlorn who are in need of our
comfort.

It is a time when we should
remember the poor and needy
who are in need of our help.

It is a time when we should
remember the sick and suffering
who are in need of our love.

It is a time when we should
remember the lonely and
forlorn who are in need of our
comfort.

It is a time when we should
remember the poor and needy
who are in need of our help.

It is a time when we should
remember the sick and suffering
who are in need of our love.

It is a time when we should
remember the lonely and
forlorn who are in need of our
comfort.

It is a time when we should

A Joyous Christmas
By E. A. Sargent

I am sure that the
world is full of people who
each new year wish to do
events and actions for the
good others for whom, come to a
new year with the assistance of a
page of the magazine.

There is a time of joy for
the heavenly court, and
the angels all around
the throne of joy, singing and
when Christ the Lord was born.
Today whenever the good news
of Christ has been wound-
forth, Christmas recalls the mir-
acles of that night of long ago,
the star first pointed men to
where the joy of that occasion
was a babe, which is Christ the
Lord.

A joyous Christmas then is not what joy you have but what joy you can receive. To fearful shyness, behind the words were, "Good tidings of great joy, which shall be to all people. I say unto you in this day in the city of David, that there shall be a Saviour, which is Christ the Lord. Today there is no much of special preparation, robes lighted windows, rich displays of food, clothes and other gifts. There is a season of joy in three last think this do we do it: 'Welcome Christ among us. He the reason for the joyous season. What ever then we do this Christmas we do unto Christ. What a guide to a joyous Christ-

Truly joy is the heart of Christ
man, and to you a young Christ
man born of Him who is well
known among us a while ago
year as you live with Him, 't
 Savior which is Christ the Lord

**Now you are assured
of
an ample Supply of
DOMESTIC HEATING OILS
and DIESEL FUELS
at the New Price!**

Here's two-fold good news for home-owners, farmers and ranchers in Alberta and Saskatchewan! Imperial Oil is happy to confirm that:—

- 1 Ample supplies of heating oils and diesel fuels are now available at new, lower prices, and Imperial Oil can guarantee your supply.
- 2 Your oil burner and space heater dealers also are ready to provide you with new equipment and installations.

Now, for the first time in several years, you can install oil burning cooking stoves, space heaters, hot water heaters, stock trough heaters, chicken brooders and other oil burning equipment. Today's increased production and reduced prices have been made possible by the rapid development in Alberta of Leduc and Woodbend and the promising outlook for the new Redwater field. The present and future output of these new fields assures prairie refineries of adequate domestic crude oil supplies to meet all needs.

Sow Good Seed and Reap More Dollars

Many thousands of farmers have found that when they sow good seed they harvest better crops and so reap more dollars. The best seed obtainable in the world today is Canadian REGISTERED SEED, true-to-variety, with a pedigreed ancestry, of high germination, free from weeds and other impurities, well cleaned, graded, guaranteed & sealed in the sack by the Canadian Seed Growers' Association and the Dominion Plant Products Division. Registered seed is at a lower price now than it has been for some years past. This season offers a good opportunity for farmers to sow more money Registered seed to improve the quality and yield of their crops. By using some registered seed and some farmer seed you can reap more dollars.

Induction Ceremony Held at St. Andrew's

A very stirring induction service was held at St. Andrew's Presbyterian Church, Three Hills on January 18th, when Rev. C. E. Roy was inducted into the pastoral charge of Three Hills, Calgary and St. Andrew's. Rev. J. S. Blacklock of St. Andrew's, Calgary conducted the service. Rev. J. M. Campbell, Calgary, presided the sermon, showing how God is using past speakers by whom, but in these last days through his Son as revealed in the New Testament. Rev. J. S. Blacklock of Calgary gave the charge to the minister, emphasizing, he must seek by, a man of God, who will lead the church and with points of the new charter of the Reformation, raising white-mountain to the Church of Pentecost. "I should like to see you before this service is done."

Minister members were received by the church and the director of Mr. C. Edwards. Mrs. H. Grant played a beautiful violin solo, meditation.

A large attendance enjoyed the excellent supper provided by the ladies of the church.

SYMBOLS OF SAFETY

When a fellow had to travel in person, the rifle was a symbol of safety. It provided food, protection, security — and now food. Today, one of the most dependable symbols of safety is your local Treasury Branch.

IT'S A GOOD IDEA TO BE SURE!

A man may have protected a good name, a hundred years ago, but there's a safe way to keep money close. That's why Treasury Branches are the most reliable of financial institutions. They make it safe to be sure!

Wedding
Reid Cor

A very pretty wedding was witnessed under a heavily decorated arch at the home of Mr. and Mrs. R. A. Hester on Wednesday, January 15th at 11 a. m., when Verda Hester, young and daughter of Mr. A. G. Hester and the late Mr. George Hester, became the bride of John Robertson Reed of Carlin, a talent son of Mr. and Mrs. John Reed of Vancouver.

The group was attended by Mr. Hartley Hay of Carlton.

Library Committee
Granted Library Space

A committee from the Lady Ryng of Vimy Chapter L.O.D.E. attended the Council Meeting Monday night with regard to the proposed Public Library. They were given a suitable room in the town hall and will now go ahead with their plans. A delegation will soon visit the L.O.D.E. at Banister to make a study of their library set up, which has been most successful. Within the near future a shower of good used books from the town and district will be rolled in and the local organizations will be asked for their financial support. Setting up a public library is a big undertaking and, if it is to be a success, the entire district must give it their support.

When we contemplate a party or a wedding it is to the variety store that we turn for the small favours for these festive occasions for a wealth of these are in stock at the variety store.

The paper hats, crackers, streamers and crepe paper that bring gaiety & spirit are to be readily found here. The confetti, rinds and cake favours are the modern counterpart of ancient wedding customs that have survived throughout the ages. In these these grains of wheat were thrown over the bride as a sign of fertility. The wedding cake, too, is of ancient origin and dates back to the Roman "confratelli", a form of marriage, the essential feature of which are eating by the couple of a cake made of salt, water & flour, and the building by the bride of three wheat ears, symbolic of plenty. A thrifty bride and her mother will purchase their wedding favours in a variety, where utility and attractiveness combine with economy.

Town Of Three Hills

It is only after the consideration of the financial condition of our town that I have been able to suggest, before the public, a candidate for the position of Mayor.

I wish to place before you the conditions and facts relating to our town and if you are not satisfied with my position then I would ask you to support me at the poll on Monday, February 27.

First I find from the annual statement that the most valuable of the town is \$210,224.00 and against this have been \$10,000.00 in taxes. I am not trying to tell you that we have a surplus of \$200,224.00. I am only trying to tell you that we have a surplus of \$200,224.00. I am only trying to tell you that we have a surplus of \$200,224.00.

To The People of The

The Knox Y.P.C. Annual Ice Carnival will be held this year on Monday, March 1st with a full day of fun and entertainment for everyone.

In the afternoon there will be football and soccer for all ages followed by a band and hockey game. The agenda for the evening includes ice skating at 7:00 p.m. and a contest beginning at 7:30.

There are also a string of six winter sporting equipment. Following that there will be a roller hockey game between Arma and Three Hills. This will be the second in three days of ice and should be well worth watching.

At 10:00 p.m. will be the opening of the Town Ballroom by a musical dance on the ice rink. The Grandstand for the Carnival of the Queen will be open. Mrs. MacNair and her family will be on hand for the night. For a good evening of fun, this is to be held for the carnival.

As a good night's entertainment, everything that makes a carnival night. We expect to see a good proportion of the grown ups to see the scene, the place.

Facts Relating To The Proposed Memorial Arena

After many months of talk and discussion with people in town and people in the country, The Three Hills Board of Trade representing a good cross section of our community decided that the project most worthy of its all out support would be a Memorial Arena. This was decided on because an arena would bring pleasure and enjoy ment to all our population from 3 years to 103 years old. Hockey and Winter Carnival have always been first with sports having Canadians due partly to our 7 month winter. It was for this reason that the Swimming Pool and Hall projects were shelved for the time being.

An arena here can do as much for all of us. It can help our small ones to learn to skate, to keep our boys and girls off the streets at night, to encourage and promote good hockey among our youth and to give to us older people the pleasure of making a contribution to their character, health and well being. During the summer it is felt the proposed arena could be used for Agricultural Shows (Calf and Grain Sales) Carnivals, Basketball, Fight & Wrestling Cards, etc. In other words a year round Sports Centre. Let us take note of the success achieved in other communities some smaller than ours.

Financing the job is of course the big task in any such undertaking as this but it is felt that with raffish, community spirit, savings, dance, appeal's to Lodges and Organizations as well as to the public for support that the project would go over the top.

The proposed Arena would be built to the interests of everyone young and old in this entire district. When it is built it will be your Arena whether you live here in Town or 15 miles out in the country.

We respectfully ask you whose hearted support this community project when the time comes to go ahead.

Cards of Thanks

Members of the Kins Young People Society would like to express their sincere thanks to those who assisted with their Marriage Dance and Banquet Evening.

The Ladies Curling Club wish to extend their thanks to all the ladies who helped plan and worked during the time they entered to the men's banquet.

We wish to thank our many friends for their interest, sympathy and flowers received during our recent and happy marriage. We wish also to thank Rev. H. H. Smith, Rev. J. N. Huggins, the Ladies Aid and the Canadian Legion.

NOTE — This paper does not necessarily endorse or assume any responsibility for letters written to the editor for publication.

Letter to the Editor

To the Editor:—
I wish to thank, on behalf of the farmers all who took part in making the Farmers Banquet the success it was. Especially the ladies who served meals and lunch to the women. I can sincerely say a good time was had by all. If an Arena is to be built, will the same co-operative labor be expected as was had on the evening risk? Yes, Three Hills, you have had to get the H. H. Smith to let you in for a good time. Building an Arena is far too big a job for school kids. What effort or money have you contributed towards sports, outside of curling, for your own benefit? What do you intend to contribute? Would an Arena if built be open to all, or would some be barred, as young players have been from the Three Hills Badminton, for example.

Farmers we all have to dig far deeper into our pockets for the Arena Fund than the Builders Society did for theirs in the Farmers Banquet. You are all to be congratulated. Yours for the better future, Howard Smith

Ladies Auxiliary Hold Successful Box Social

The Ladies Auxiliary to the Log on Post No. 100, held their annual box social on Tuesday night and a good time was reported.

Prizes for the most decorated boxes went to Mrs. M. Macmanan first and Mrs. Quigley second, while the white order went to Mrs. Hughes and Ben Mathew with highest scores. Mr. Quigley and Mrs. Ma had done picked up the other prizes.

Mr. Mathew made a capital entertainer, at least he got 40 out of one girl for a last, so he must be good.

Mr. and Mrs. Russell Flowering and family recently moved to Calgary.

26 Rinks Enter Farmers Banquet

Monday, Tuesday, and Wednesday of this week the curling rink was a hub-bub of activity again with the Farmers Banquet in full swing. There were 26 rinks entered and everyone seemed to be enjoying the annual affair, with nice games played.

The U.F.A. served meals and hotbeds at the country throughout the week.

Those coming out victorious in the first competition were: 1st Don Davis, 2nd C. Ruby, 3rd Geo. Baker and 4th Norman King.

Second Round — 1st Don Davis, 2nd Max Durr, 3rd Bert L., and 4th A. H. Tremblay. (Hobby)
The 2nd Round was held on Wednesday with rinks from several neighboring towns taking part. Trunks came out on top and took home the trophy.

In The Legislature H.G. Hammett

At a night sitting on Friday, Premier E.C. Manning brought in the largest budget in Alberta's history. It anticipates receipts of \$94,332,000.00 during the coming fiscal year and expenditures in excess of that by \$2,427,000.00.

After April 1st the Province will carry all of the costs of Old Age and Blind Pensions which were carried before by the municipalities. They have previously paid 10% of the pension to which the Dominion Government contributed. Pensions to three name people will be increased to \$400 giving Alberta the highest pension in Canada. The Province now will pay \$100.00 in excess of the maximum Dominion pension.

No new taxes are to be levied by the Government during year.

Next week I will further details on the budget highlights. Hon. D. A. U. outlined to the Legislature the Master Farm Family program which is being initiated in Alberta this year. It will be a province wide contest open to any farmer of ten years farming experience who is nominated by three neighbors. Contestants must be Canadian citizens. All phases of farming operations including land use, diversification of activities, tree planting, community service, household facilities of the whole family will be scored. Final winners will be named in each of five oil zones of the Province and appropriate awards will be made. It is felt this program will draw attention to the advantages of rural life and on farming as a way of life as well as a business. It will recognize good farming, clear thinking and right living. Further details can be secured from any District Agriculturist or Home Economist.

Better Seed

**Produces A
Better Crop**

That better seed will produce a better crop is the one piece of advice that has never changed throughout the ages. The best seed obtainable is Registered Seed, for it has a guarantee of true-to-type, is of high germination and contains a maximum of impurities.

Need proven this year has reduced prices to a comparatively low level. This then is a bargain year for farmers to use Registered seed in order to improve the quality of their grain & obtain the highest possible yield per acre that conditions will permit. The purchase of a few bushels of Registered seed is an investment that will bring farmers high returns in additional income. Producers should use their Elevator Agent for supplies of this material at reasonable prices.

Young Heroes Can Play Dr. Chase's Nerve Food

Many women find it hard to realize their nerves are "bad." Yet it's not always obvious. Sometimes the difference between nerves to get off to a start—especially during the first trimester of pregnancy—and nerves to get through the day is a matter of a few minutes. Young mothers-to-be, pregnant women, and women who are nursing babies can benefit from Dr. Chase's Nerve Food, a natural, safe, and effective way to help you feel better, look better, and live better.

During the first 90 days, the first three months of pregnancy, the body has to have good energy and supply

through the most trying periods of life—by taking this "nerve food" to help you get through the first trimester and after-natal months. Good Dr. Chase's Nerve Food is also a good idea for women who are nursing a baby or a bundle of twins. Get the help you need to get through the most "Dr. Chase's" time today.

THE NEW REPUBLIC **Minister J. M. McKenna** informed the House of Commons that under present income tax regulations farmers paying less than 100 acres can pay them up to 500 pounds without adding the 5000 to their gross income in the case of agricultural land.

THE NEW YORK TIMES a question put to Mr. McKenna by the Progressive Party was answered by Mr. Lake as follows:

The minister said that the Government was not prepared to pay the 5000 pounds but would be prepared to pay the 5000 pounds if the farmer could be proved to be a small farmer.

NEW! FAST-ACTING DRY YEAST
 Haste Yeast
 Haste Yeast
 Haste Yeast

Thousands of women every month are returning to the new Fast-Acting's Rapid Start Yeast. Why? Because it's fast—its action—helps for results in the kitchen. It's the only yeast, because it's fast.

Town Requires Aid In Gravel Project

Due to the very heavy expense that the Town is subjected to this year it is impossible to spend money for graveling our streets. It is even more difficult to fill the deplorable condition of the same, especially after a rain. Therefore the Council has decided to ask truck owners in and around Three Hills to help by donating one day of hauling from one of the local pits the first week in June. The Town will pay for the gravel and the hauling and arrange for the unloading. This is going to demand the co-operation of every citizen in Three Hills and as many of our farmer friends as will help us. The response from the truck owners & especially from the farmers has been most gratifying. At present we have the following trucks offering to haul for our day. We hope next week to double this list. Ross Irwin, Don Smith, E. P. Foster, Shon Erno, Jim Coy, Vancouver Bros., Don Anderson, Geo. Kopulak, Bill Kenwig, Jim Milan, Three Hills Motors, Highway Motors, J. Pejt, Canadian Motors, B. Kilgour, H. F. Pryor, L. Mattias.

Any truck owners who care to help put gravel on the roads please contact M.V. Smith, H. Waterbury, N. Dummer or E.P. Foster, your co-operation is appreciated.

Wedding

Baxter - Witwer

The home of Mr. and Mrs. G.L. Witwer was the scene of a pretty wedding at noon, Thursday, April 26th when their eldest daughter, Patty Lee became the bride of Alford John Baxter, youngest son of Mr. and Mrs. T. P. Baxter of Brooks.

The bride, who was given in marriage by her father, entered the living room to the strains of Schubert's Wedding March, wearing a powder blue dressmaker suit and hat, with party accessories and a carriage of pink nosegays. Misses Shirley and Elaine Witwer, sisters of the bride, as bridesmaids were dressed in grey and beige with nosegays of pink roses.

Mr. Robert Dumas, Three Hills,

acted as best man.

After the ceremony a buffet luncheon was served in the guests to the living room which was decorated with large ferns.

Out of town guests included Mrs. T. P. Baxter (groom's mother) of Brooks, Mr. Robert Baxter, also of Brooks, Mrs. B. Horn, Parkland, B.C., Mrs. John Witwer and Miss Francis Young of Calgary.

After a brief honeymoon in Calgary and B. took the happy couple returned to make their home in Three Hills.

Viola and Vera Haggan visited their mother, who is a patient in General Hospital Calgary, over the week end.

Nedder Boulton, for the past several months accountant at the Treasury Branch left last week for Hamilton, B.C.

Senayelo Man Loses Arm

James Friend, 65, Senayelo, Saskatchewan had the misfortune of losing part of his right arm on Wednesday morning at about 11 o'clock. It is believed he became entangled in a drive shaft. Latest reports are that Mr. Friend is progressing favourably in the Three Hills Hospital.

Ghost Pine Ladies Organize Club

The Ghost Pine Community Group will hold their regular meeting on Thursday, May 12 at the home of Mrs. Yon Bishop. All ladies are cordially welcome to attend these meetings. Come and see what we do.

and bring along your suggestions. Meetings are held the 2nd and 4th Thursdays of each month. President: Mrs. J. Bishop. Vice-Pres: Mrs. Geo. Karshole. Secretary: Mrs. H. King. Treasurer: Mrs. Sandy Sornerville.

O.E.S. Honey Host At Birthday Party

The members of the O.E.S. Friendly Chapter 346 pleasantly surprised Mrs. Elizabeth Harte at their regular meeting on Thursday when two of the members carried in a large birthday cake and a lovely bouquet of flowers and the members sang "Happy Birthday to You" it being the occasion of Miss Harte's birthday.

Although Miss Harte was greatly surprised she thanked the sisters for the kind thought and for the lovely luncheon.

They Have Ears

By Louis Arthur Cunningham

The nation that has put its ears to the wind and is listening for the first time, the first time that it has ever listened to the voice of the people, is the United States. The United States has been listening to the voice of the people for a long time, but it has never listened to the voice of the people as it has now.

More About Graveling

The council has decided to gravel our streets early in June and all truck drivers and help will be informed several days in advance so that they can be ready to go. We will obtain the gravel from a gravel pit two miles north and one mile west of Allingham. We have hired a large over head crane to load and the following informs us that he can keep 40 trucks going steady at that distance. He wishes to start at 8 a.m. and run steady until 6 p.m. so we will ask all trucks to be on time if possible, otherwise this log ruckly outfit will be late, and then the operator does not wish to be late. We now have the following trucks, but we still need a few more.

John Dwyer, D. Parry, Evans Bros., Wolf Evans, Arvidson Bros., Fred Robertson, Peter Hoke, F. Hill, Dean Bros., Chas. Crawford, Geo. McCann, P.H.T. (truck for 2 days) A.A. Kirk, Alan Krivier, T.W. Wilson, A. Stewart Bros. (truck), Don Smith, F.F. Foster, Alan Bros., Joe C.Y. Vancouver Bros., Don Anderson, Geo. Knapton, Hill Knapton, Jim Milne, Three Hills Motors, Highway Motors, J. Hapi, Canadian Motors, B. Knapton, H.F. Pryor, L. Malin, M. Evans, Ray Hall, Geo. Dean, John Nickel, H. Harkish, F.O. Nelson, C. Knapton, B. Mares, P. & L.C. Brocureur, Wally Peterson, Bishop Bros., Ray Davidson.

The following mechanics are donating a man for one day to help unload the gravel: J.E. McRae, P.H. Hoffman, H. Kary, Treasury Branch, Crown Lumber, Reg. Hens, and the Royal Bank.

THE "BLUE BOOK" OF FAMOUS TRAINS...

Serving all ten provinces of Canada

Across Canada, travellers are spending to their destination on trains of the Canadian National, enjoying delicious dining car meals, comfortable sleeping accommodations, and service and service.

Passes make such as The Continental Limited and The Ocean Limited, make you to cross Canada from the Pacific to the Atlantic. The International Limited, The New-City Limited, The Washington are operating Canadian National's importance as an international carrier between Canada and the United States.

There are other great trains, together with dependable "local", serve more than two million miles each month and make up the Railway "Blue Book" — the Canadian National Time Table. Only Canadian National serves all ten Canadian provinces, and the "Blue Book" is your guide to everywhere in Canada or across the border, by your journey for a day, overnight or longer.

Oil in the driving gears

BANK CREDIT oils the driving gears of production, industry and commerce. It helps to produce the goods and provide the services and jobs which mark the Canadian way of life.

"Money in the bank" is the foundation of credit. You and some seven million other depositors have nearly seven billion dollars in the chartered banks. To pay for milk, doctors, products, bought and sold, Canadian issue — every month — upwards of six billion dollars in cheques.

Cashing these cheques, making loans, discounting notes — in many different ways bank keeps money and credit moving through all the channels of trade and opportunity... like oil in the machinery.

This whole vast, private, competitive, efficient process is made possible by your "money in the bank" — and by the experience and skill and integrity of the men and women on Canadian bank staffs.
